HUERTA PUTS UP FORMAL PROTEST

Declares Extension U. S. Lines at Vera Cruz Violates Peace Armistice

THREATENS TO WITHDRAW FROM MEDIATION PACT

U. S. Will Stand Pat—Believed Plans Are for Big Troop Movement Soon

WASHINGTON, May 8.—Huerta has lodged a formal protest against the extension of American lines about Vera Cruz, claiming the action to be a violation of armistice, and threatening to withdraw from the mediation pact unless it ceases. It is understood the Washington administration considers itself within its rights in protecting the Vera Cruz water supply and will refuse to vacate its position.

Much anxiety was evident among administration officials as a result of the situation created by Huerta's action. Many believe the dictator is seizing this opportunity to avoid further mediation.

There was still no explanation forthcoming this afternoon of the all night session of the war board. The impression generally prevails that plans are going ahead to move a big detachment of troops at Vera Cruz. Delay in mediation negotiation is giving the government ample time for these arrangements.

Vera Cruz dispatches state that the last refugee train leaving Mexico City under the Brazilian flag is due today or tonight. The track in many places is torn up and the passengers are compelled to transfer. It is certain many Americans remain in the Mexican capital.

TUMULTY DENIES CRISIS AND SENDING OF TROOPS

WASHINGTON, May 8.—Secretary Tumulty held a conference with President Wilson this morning, then gave out the following statement: "Reports that an attack is imminent on the American forces at Vera Cruz, or that a serious crisis has arisen are without foundation. General Funston reported to Secretary Garrison the stories brought by refugees concerning conditions in Mexico City. They are merely confirmatory of what was already known. There is no intention of sending additional forces to Vera Cruz."

Secretary Tumulty did not comment on the fact that Secretary of War Garrison and the general army staff were in conference until early this morning.

OIL PROPERTIES BEING DESTROYED—TROOPS AIDED

WASHINGTON, May 8.—Despite denials it was learned today that Admiral Mayo has asked through Admiral Badger for troops to occupy the oil property about Tampico. He wanted them solely for the purpose of protecting the properties. Secretary Daniels submitted a long report on the situation at a cabinet meeting today. The diplomats had heard that two wells, one belonging to the Pearson interests, were burned yesterday. A delegation of oil men with properties at Tampico called on Secretary Bryan, demanding protection of their property.

The Mexicans, it is stated, have threatened both Americans and Englishmen who wished to return to work in the oil fields. It is added that the British foreign office has made strong representations through their legation to the Mexican government and it is understood that England accuses rebels as well as the federalists of breaking the agreement to protect oil property.

HUERTA ORDERS VESSELS HELD AT MAZATLAN

Admiral Howard today reported to the Navy Department that Huerta had ordered that no American vessel be permitted to clear from Mazatlan. The message was dated yesterday. Mexican vessels are forbidden to clear for American points. General Obregon, commanding the rebel forces outside of the city, had promised to establish a neutral zone and to protect non-combatants and foreigners. Many Americans are inside the rebel lines and are unwilling to leave. The message made no mention of the rebels' claim made yesterday that Mazatlan had fallen.

IDA PEARRING ILL OVER DIGGS CASE DECISION

SAN FRANCISCO, May 8.—Ida Pearring, who charged Maury I. Diggs, former state architect, with a statutory offense, is ill in bed today as the result of the jury's verdict yesterday evening, acquitting the defendant. The girl's mother said she would consult her lawyers regarding a civil suit against Diggs.

Daniels to Meet Ship That Bears U.S. Sailor Dead

WASHINGTON, May 8.—Secretary of the Navy Daniels planned to sail at midnight on the yacht Mayflower to join the cruiser Montana, carrying the bodies of the seventeen marines and blue-jackets killed in the American occupation of Vera Cruz. He will meet the ship off the Virginia Capes from where the ships Wyoming and Tennessee will act as convoys to port. The Montana will probably dock Sunday afternoon.

Bulletins of News

Hot from the wire up to 3:30 p. m.

THE WEATHER

Fair tonight and Saturday, with intervals of clouds or fog; westerly winds.

Seymour Stuart Heads Sons Confederate Veterans JACKSONVILLE, Fla., May 8.—Seymour Stuart of St. Louis yesterday was elected commander-in-chief of the United Sons of Confederate Veterans, succeeding W. W. Old, Jr., of Norfolk, Va.

Big Storm Ruins Alabama County Crops

SELMA, Ala., May 8.—A terrific hail, wind and rainstorm yesterday swept over west Dallas county and east Perry county, routing up growing crops and doing damage amounting to thousands of dollars.

Chinese Eggs to Be Branded "Product of China"

SEATTLE, Wash., May 8.—The United States Department of Agriculture has ordered that hereafter all cases of Chinese eggs shall be branded "Product of China."

WIND AND HAIL SWEEP SOUTH STATES

\$2,000,000 Mark Passed in Loss—2 Killed, 2 Fatally Hurt in Big Storm

NEW ORLEANS, May 8.—Heavy property damage and a loss in fruit and young vegetables which will pass the \$2,000,000 mark, was the toll taken by the wind and hail storm that swept the southeastern United States yesterday. It left a path of wreckage through Mississippi and Alabama and embracing the greater portion of South Carolina, Southern Georgia and Florida.

Wire communication was demoralized, many cities being altogether isolated. Among these latter were Tampa, Savannah and Jacksonville. At the latter point the United Confederate Veterans' Association and allied organizations are now in annual convention.

Two men were killed by a falling tree at Vicksburg, Miss. Two sustained fatal injuries as a result of a falling smoke stack at Hewanee, a Mississippi saw mill town, and at Waynesboro, Miss., houses and trees were blown down. The storm took a southeasterly course from Waynesboro, dismantling all telegraph and telephone poles and in some instances entirely isolating settlements.

The damage reported by South Carolina was confined practically to growing cotton and corn. Both crops suffered heavily. Neither Florida nor Georgia could place an estimate on the damage caused by the storm because of crippled wire service. The farmers in both states sustained severe financial loss. Florida citrus growers are particularly hard hit.

ARMS DEMANDED IN STRIKE ZONE

TRINIDAD, Colo., May 8.—A proclamation ordering everyone in the strike district not connected with the regular army to surrender their arms between 9 o'clock tomorrow morning and 3 o'clock in the afternoon, was issued today by regular army officers. Numerous places were named where weapons will be received. William Diamond, a strike leader, has issued an order calling on all strikers to comply to the letter of the proclamation.

Melba Cream Kisses 20c per pound next Saturday. Candy Special at Tylors, 216 W. Fourth street.

The Modern Dry Cleaning Co., 519 N. Main St. Both phones.

CHILD DROWNED IN IRRIGATION DITCH

Little Tot Fell Off Bridge Across Main Canal at the Pyne Ranch

BODY FLOATED FOR A MILE AND A HALF

Victim Was 13 Months Old, Son of William Erwin, Recent Arrival

Yesterday afternoon Donald Erwin, 13-months-old son of William Erwin, was drowned in the main canal of the Santa Ana Valley Irrigation Company. The body of the little fellow floated down the ditch for a mile and a half and had been in the water for two and a half hours before it was found.

Erwin is living on the Pyne ranch in the Santa Ana canyon five or six miles above Olive. The main canal is located beside the road in front of the ranch, and is crossed by a small bridge. The child toddled to this bridge, and fell off. It was 3:30 o'clock when he was missed, and his tracks quickly told the parents where the little fellow had gone.

The water was turned out of the canal, and search was made for the body. It was found about 6 o'clock last evening.

Erwin and his family came to this state from Nebraska two years ago. They have been on the Pyne ranch for five months.

PROBABLE TRAGIC FATE OF INDIANS REVEALED BY FIND

WHITTIER, May 8.—Uncovered by the river that went on a rampage in the recent flood, a human skull was found by some schoolboys playing in the river bed of the San Gabriel river yesterday morning.

Later the skeletons of a man, woman and child, the bones whitened by age, were dug up by Officers H. Gordon, R. B. Way and Art Singer, with W. P. Temple, who summoned the officers to the scene. The bones were found buried only two and a half feet deep in the river bottom and the supposition is they were once the bodies of Indians who peopled this country decades ago and that the family met a tragic death.

The bones are on exhibition at the city hall.

SON SLEW HIS FATHER AT NORWALK

Valentine O'Connell Instantly Killed—Son Said Shooting Was in Self-Defense

NORWALK, Cal., May 8.—Valentine O'Connell, aged 43 years, a tanner, was shot and instantly killed this morning by his son, Varney O'Connell, aged 19. The boy was arrested and taken to Los Angeles.

O'Connell claimed that he shot in self-defense when his father came home intoxicated and threatened to kill him and his mother. He said his father rushed at him with a razor and that he then fired the fatal shot. O'Connell was shot through the heart. The razor was found beneath his body.

GERMAN ARMY AIRSHIP WRECKED IN STORM

BERLIN, May 8.—A report has reached military headquarters that a German military airship was destroyed in a storm near Zessen. The ship carried a crew of thirty. The dispatch makes no mention of the fate of these. An official investigation was at once ordered.

SOUTH AMERICAN PRESIDENTS WHO WISH TO SETTLE MEXICAN TROUBLE

President Hermes da Fonseca of Brazil

President Ramon Barros Luco of Chile

President Roque Sanz Pena of Argentina

These are the presidents of the three most powerful countries of South America, who, through their ministers and ambassadors at Washington, offered to mediate between the United States and Mexico, the offer being accepted by President Wilson through Secretary of State Bryan.

The acceptance brought forth many different views in Washington. Representative Flood, Democrat, chairman of the Foreign Affairs Committee of the House, had this to say:

"This offer does not change our policy of aggression in the slightest. If Huerta, realizing that he is facing defeat, wants to accept this offer, it will be glad news to us. But if the reports of Americans held as hostages are true, then the situation has changed, and we are bound by only the spirit of our acceptance. But Huerta and all he represents must go and the Mexican people must come into their own."

But Senator Bristow, Republican and near-Progressive, of Kansas, has other views:

"Astounding is the mildest word

I can think of to express my opinion of the president's action in agreeing to permit Chile, Argentine and Brazil to arbitrate our differences with Mexico.

"How can the United States arbitrate with a bandit whom we do not recognize to be anything more or less than a murderer? How can those three nations use their influence between a government and something which that government does not recognize as anything but an individual? It is the most absurd, the most impossible situation that I ever heard of."

MAN FOR PEACE PLANS HARD TO FIND

England Asks Protection for Citizens—Sillman's Fate Yet in Doubt

[By John Edwin Nevin] WASHINGTON, May 8.—The administration is having trouble to find the right sort of a man to represent it before the peace mediators. President Wilson again discussed the matter with his cabinet today but no selection was made. The difficulty is that the negotiations at Niagara Falls promise to be long, and whoever is chosen must abandon other matters indefinitely. Few big men are able to do this. The State Department today received a friendly note from England calling attention to the fact that an Englishman had been killed at Guadalajara, and that another Englishman, G. H. Coxson, of the Vera Cruz railroad, was held prisoner by General Maas. Anxiety is growing concerning American Consul John Sillman at San Luis Potosi. Secretary Bryan notified General Maas that he would be held personally responsible for Sillman's safety, and the French and Brazilian legations in Mexico City have notified Maas that he must produce Sillman unharmed.

HUERTA PROTESTS AGAINST FUNSTON EXTENDING LINES

It is learned that Huerta has formally protested against General Funston's extension of his lines beyond the Vera Cruz waterworks. He holds this to be a violation of the armistice. Nelson O'Shaughnessy was scheduled for a conference with the president today but the president notified him that he cannot meet him before Monday. O'Shaughnessy holds the opinion that Huerta will not abandon the dictatorship of Mexico voluntarily.

Huerta Voices Protest. MEXICO CITY, May 8.—Foreign Minister Ruiz has sent a note to the South American mediators complaining that America in landing troops at Vera Cruz and subsequent operations, violated the terms of the armistice.

MINISTER MOHENO IS RUMORED AS DEAD

VERA CRUZ, May 8.—Refugees from Mexico City said that the death of Querido Moheno, the minister of commerce and industry and former minister of foreign affairs, is rumored. Some of the reports said he suicide; when Huerta refused to accept his resignation, while other accounts say he died of an unknown cause and was quietly buried. None of the rumors have been confirmed.

Funston Admires Nerve. The Mexican woman arrested several days ago, charged with "sniping" American marines, was found guilty by court martial and sentenced to six months' imprisonment. She was then released by General Funston's order. The general said: "I am for any woman with nerve enough to shoot for her country."

Take the elevator to our new Suit department and see how much you can save, at Gilberts.

SING SING WARDEN AND CHAPLAIN IN TRIAL OF BECKER

NEW YORK, May 8.—It was announced today that Warden Clancy and Chaplain Casin of Sing Sing, who heard "Dago Frank" Cirofici's confession shortly before his execution for the murder of Gambler Herman Rosenthal, will testify at the second trial of former Police Lieutenant Becker charged with the same crime.

An eleventh juror was selected during the morning session. Both sides believe the jury would be completed before night. A big crowd attended the trial today.

Jury Completed Today. The jury to try Charles Becker on the charge of the murder of Gambler Rosenthal for which four gunmen died, was completed this afternoon. Taking evidence will probably begin Monday.

WILLING TO USE IT FROM CURRENT FUND

Supervisor Jasper Leck of Tustin states that his vote against the resolution providing that the county shall pay for a part of the paving of a road in La Habra from the general road fund was based upon his desire to have the money come from the current expense fund. He says that the board agreed to aid in doing the proposed paving, and he is willing to stand by his promise, but he wants to stand by it as promised. The promise was that he favored the paying if paid for out of the current expense fund, and he opposes payment out of the general road fund.

PENNSYLVANIA HONORS SAILOR DEAD

Philadelphia and Pittsburgh to Hold Public Services for Vera Cruz Victims

PHILADELPHIA, May 8.—The City Council has appropriated \$500 for the public funeral of George McKenzie Poinsett and Charles Allen Smith, the young sailors from this city who were killed at Vera Cruz. A resolution was adopted calling upon Mayor Blankenburg to issue a proclamation requesting that all business be halted for an hour during the funeral services and providing that flags be placed at half mast on all public buildings.

It was decided the bodies should lie in state in Independence Hall from 8 a. m. until 2 p. m. next Wednesday, when the burial will take place. Sailors from the Philadelphia navy yard will be active pall-bearers and six companies of sailors and one of marines.

Marine to Lie in State. PITTSBURGH, Pa., May 8.—Arrangements have been completed for the funeral of Francis Patrick de Lowrey, a Pittsburgh marine, killed at the battle of Vera Cruz. The City Council has appropriated \$500 and the body will lie in state in the City Hall. It will be escorted to the cemetery by Pittsburgh commands of the Pennsylvania National Guard.

HONEYMOON TRIP DESTINATION UNKNOWN

Secretary and Mrs. McAdoo Slip Away—May Be at Hudson Home of Bridegroom

WASHINGTON, May 8.—Secretary and Mrs. W. G. McAdoo are believed to have gone either to some point in Massachusetts or to the McAdoo summer home on the Hudson. The bridal couple was last accounted for at College Park, Maryland, where they boarded the President's private car for the North. On account of the strenuous times existing at Washington and with the new currency law taking effect it is said that Secretary McAdoo cannot be spared long from the capital, and the couple are expected to be back in two weeks.

The marriage of the cabinet member and the youngest daughter of President and Mrs. Wilson took place at six o'clock last evening in the famous Blue Room of the White House, and was followed by a brief reception, a wedding supper and a dance.

CONVENTION SPEAKER URGES 8-HOUR WORKDAY

FORT SMITH, Ark., May 8.—"No matter how much I loved a man I would not marry him if he had to work more than eight hours a day," declared Miss Kate Barnard, commissioner of prisons and corrections of Oklahoma, before the Arkansas conference of charities and corrections here.

She declared for shorter hours for workers and voiced opposition to contract prison labor.

BELVA LOCKWOOD BENEFIT

CHICAGO, May 8.—Mrs. Belva Lockwood, noted suffragist, and the only woman candidate for president, is to occupy a box at the pageant to be given for her benefit in the Hotel La Salle tonight by Chicago society and clubwomen. The proceeds of the pageant will go toward a fund of \$3,000 to be used in paying off a \$3,000 balance due on a mortgage on Mrs. Lockwood's home in Washington, D. C. Mrs. Edward Cudahy, Mrs. Charles R. Crane, Mrs. P. D. Armour and Mrs. William Wrigley, Jr., are among the boxholders.

VETERANS OBJECT TO ANY CHANGE IN "OLD GLORY"

SAN DIEGO, May 8.—Immediately before adjournment of the annual encampment, G. A. R. of California and Nevada, the veterans adopted a resolution opposing proposed change in the design of the American flag. Many of the veterans signed a petition to congress to put an end to the "killing of Americans" and destruction of American property in Mexico. The encampment closes today. New officers were installed today, and delegates to the National encampment elected.

ARE SIGNING READY FOR WAR

Members of Company L Are Ready to Enter Volunteer Service

CAPT. MCBRIDE IS GETTING SIGNATURES

Entire Company Be Ready to Answer Call if it Comes

If the President calls for volunteers Company L, Seventh Regiment, N. G. C., will be fully signed and ready to be sworn in for instant duty, to go wherever it is sent.

Capt. J. L. McBride has received instructions from the adjutant general to secure the signatures of all members of the company who are ready to sign for volunteer service, if called upon. He says that he is confident that every member of the company will sign. All of those he has seen since he received instructions this morning put their names down on the list instantly.

At present the company is a member of the state guards, and cannot be sent out of the United States. By signing as volunteers, the state gets the assurance of the men that if called upon the men will accept service as United States volunteers, which can be sent into Mexico or any other place the army authorities see fit.

INDIO SENDS BLACK FIGS TO LOS ANGELES MARKET

Helping to increase the record for the early arrival of fruits in Los Angeles this season, black figs appeared on the local market yesterday about two weeks before they were thought to be due, says the Los Angeles Tribune.

A box containing thirty-five figs was received from Indio by the Rivers Brothers Produce Company, which sold them to the Van Nuys hotel for \$10, nearly 30 cents apiece. The figs were large and firm and were exceptionally good for the first of the season. Cherries, apricots and cantaloupes have all arrived in the city earlier this year than they ever have before.

WINGFIELD'S WIFE CRITICALLY ILL

Physicians Rushed on Special Train to Reno, Nev., from San Francisco

RENO, May 8.—A special train chartered by George Wingfield, the Nevada millionaire, and carrying Drs. E. C. Fleistman and Francis B. Wakefield, arrived here from San Francisco at 8:15 o'clock this morning. The physicians were rushed in an automobile to the Wingfield home, where Mrs. Wingfield is reported to be in a serious condition following the birth of a son on last Sunday night. Mrs. Wingfield was formerly Miss Maude Murdock of San Francisco.

HEAVY VOTE IN LOS ANGELES ON BONDS

LOS ANGELES, May 8.—It is estimated this afternoon that 40,000 votes had been polled at noon in the election on the proposition to bond the city for six and one-half millions to construct a municipal generating and distributing light system for Los Angeles. 144,000 voters were registered. Both sides worked furiously throughout the day and indications are that more than one half of the registered vote would be polled. The bond proponents claim their success is assured by a heavy vote. The opponents of the bonds were also optimistic at noon.

TWO CHICAGO PAPERS OF NOTE ARE CONSOLIDATED

CHICAGO, May 8.—The Chicago Record-Herald and the Chicago Inter Ocean were merged yesterday afternoon. The consolidated newspaper will be controlled jointly by James Keeley, who for some years has been general manager of the Chicago Tribune, and W. W. Chapin of San Francisco.

Announcement to this effect was made this afternoon by H. H. Kohlman, up to today owner of the Chicago Inter Ocean. The announcement followed the sale of the Inter Ocean to George W. Hinman for \$50,000 in the postponed receiver's sale in Federal Judge Carpenter's court.

NOW SAFE IN NEW ORLEANS

Man Who Has Relatives Here
Escaped from Oil Field
Near Tampico

Word was received here today of the safe arrival of W. I. Janes at New Orleans, Janes, who has been in the oil fields at Tuxpan, 100 miles from Tampico, is a son of Mrs. Mary J. Janes, corner Hickey and Garnsey streets, and a brother of Mrs. Al Dresser and of Mrs. Ray Dresser, all of Santa Ana.

A letter received from him states that he was at work at Tuxpan when the employees of the English company by which he was employed got a telegram to leave at once as quietly as possible. The men left in small groups, made their way to the gulf and at the mouth of a river were met by a company boat. Janes states that the federalists took their horses away from them. The men saved nothing except what they wore.

LOS ANGELES HAS 135,340 FOREIGNERS IN POPULATION

The total foreign population of Los Angeles is 135,340, representing 44 per cent of the entire white population of the city, according to figures given out yesterday by the census bureau at Washington, D. C., from statistics gathered in 1910. The English and Celtic (including Irish, Scotch or Welsh) group of foreign white stock numbered 52,944, or 17 per cent of the total white population, which was 305,397. Those reporting German as their mother tongue numbered 33,364, or 11 per cent; Spanish, 9882, or 3.2 per cent; Italian, 6919, or 2.3 per cent; Swedish, 6475, or 2.1 per cent; French, 6412, or 2.1 per cent; and Yiddish and Hebrew, 5795, or 1.9 per cent.

The number of persons in Los Angeles of foreign white stock reporting other principal mother tongues were: Danish, 2272; Norwegians, 2063; Polish, 1449, and Slavonian, 1503.

Melba Cream Kisses 20c per pound next Saturday. Candy Special at Tally's, 216 W. Fourth street.

SPECIAL REVIVAL MEETINGS

Rev. J. H. Cochran, D. E.

At the Free Methodist Church, corner of Fruit and G streets, from Friday, May 8, to May 10. Services as follows:

Friday night, May 8, 7:30 p.m.
Saturday night, May 9, 7:30 p.m.
Sunday, May 10, 11:00 a. m.
Sunday, May 10, 3:00 p. m.
Sunday, May 10, 7:30 p. m.

These services will be conducted by Rev. J. E. Cochran of Los Angeles. Rev. Cochran is a very attractive speaker, a minister of rare ability and an excellent orator.

Seats free and everybody cordially invited to attend and enjoy these old time Methodist meetings.

ATTEMPTED TO KILL HERSELF

Woman Took Mixture of Sheep-
Dip and Muriatic Acid
Yesterday

ORANGE, May 8.—Mrs. Alfred Hardy is in a critical condition as the result of an attempt by her to take her life yesterday. She is the wife of the foreman of W. H. Burnham's ranch on Batavia street, and it is thought that her mind has not been right for a time.

Yesterday she rode a bicycle to the corner of Olive and Walnut streets. There she sat down under a tree and drank a concoction of sheep-dip and muriatic acid. The pain was such that the woman screamed, and it was but a few minutes until a physician had been secured by one of those who heard the screams and ran to her.

A stomach pump was used, and the woman was taken to her home.

RUMORED McADOO MAY RESIGN HIS JOB IN CABINET

SHARON, Pa., May 8.—The Sharon Herald yesterday published a story that Secretary of the Treasury William McAdoo is to resign to become Ambassador to France, and Congressman A. Mitchell Palmer of Pennsylvania is to receive the appointment to the Cabinet position. The story is as follows:

"It's a time-honored custom that no immediate member of the President's family can hold a position in the Cabinet. Secretary of the Treasury McAdoo, it is said, will relinquish his position in the Cabinet.

"There is a well-founded story in the capital that McAdoo is slated for the ambassadorship to France. Men close to the administration say Congressman A. Mitchell Palmer has the best chance of succeeding McAdoo."

ANNOUNCEMENT
—Dr. J. W. Shaul will be in his Los Angeles office forenoon; Santa Ana office, 2 to 5 p. m., and by appointment.

**CHARITIES AND CORRECTION
CONFERENCE NOW GOING ON**

MEMPHIS, May 8.—With representatives present from almost every state in the Union the forty-sixth annual meeting of the National Conference of Charities and Correction convened here today. Sessions will continue through May 15.

Mrs. Hurry—"Gracious, goodness! Mrs. Staylong came here this afternoon just when I thought I was going to have a rest after finishing my wash this morning. She's just gone and I was so ashamed. She asked Dorothy to walk home with her part of the way and Dorothy said, 'I'd like to, but I can't. We're going to have dinner as soon as you leave.'"

Anty Drudge—"Well, it is provoking to have your rest broken up, but it is pleasant to entertain company than it is to stand over washtubs all day like you used to before I told you about Fels-Naptha Soap."

**Fels-Naptha
Soap in cool or
lukewarm water
will do your work
easily, quickly
and thoroughly.
It makes all sorts
of work easy and
saves your time
and strength. Your
weekly wash can
be done in half
the time it used to
take and the
clothes do not have
to be hard-rubbed or
boiled.**

It is just as good for
all kinds of house-
work.

Buy it by the carton or box.
Easy directions are on the Red and Green Wrapper.
Fels & Co., Philadelphia.

"LET MEXICO ALONE" IS THOUGHT OF MANY THINKING AMERICANS

Devastated Republic Is A Baby Among
Nations—Has Many Problems to
Solve—Must Have Time

VERA CRUZ, May 8.—Let Mexico alone. That's the thought that impresses itself upon every American—that is, every American who doesn't own a mine or a concession—who knows anything about the situation here.

Here's a simile that shows the feeling: A lot of old folks, father, mother and grandparents, are watching a baby try to walk. The baby falls and bumps its head; again it tumbles and almost every stroller the baby takes winds up in some disaster. But what nonsense it would be if the parents and grandparents finally decided that the baby must not be permitted to walk. It would be the height of folly as well as of cruelty to the child to say:

"Every time baby tries to learn to walk it hurts itself. Therefore we'll push him around in his carriage and we won't permit him to try to walk." It would be less cruel to the baby outright than to treat it in this fashion.

Mexico is a baby among nations. American intervention would be strapping Mexico into a go-cart.

Mexico has a tremendous distance to go to reach manhood among nations. The distance is so great—centuries long—that it makes you tired to consider it. But it's a journey that many of the greatest nations of the earth have not yet completed, after centuries of struggle. All the problems that these elder nations have solved and are solving for themselves, Mexico must solve for herself.

If we narrow the comparison down to measuring Mexico with the United States we discover that Mexico has not yet even started to solve her Indian problem. Her wild west days, her Custer's last fight and charges, her massacres, her Indian reservations, all are before her and haven't even been touched. There are vast territories in Mexico where a Mexican doesn't dare to venture for fear of Indians.

Of Mexico's population of 16,000,000, almost 8,000,000 are Indians. When we look back in the United States at our Indian days and consider that Mexico can't even begin to take up the Indian problem until it has solved the problem of how to take care of its own government in the semi-civilized capital of Mexico City, we begin to see something of the long road that Mexico faces. In the northwest of Mexico, just as the northwest of the United States in the old days, the sturdiest of the Indians reside, the Yaquis. In their own way they are a noble race. Here's a picture of one thing that happened among them. After Madero's victory, Gen. B. F. Viljoen, the former Boer general, who aided Madero, was sent to persuade

the Yaquis to peace. He went to them in the mountains, with the wise governor of the state, and an interpreter. They received him in the campfire circle and passed around the pipe of peace. Just as the Sioux Indians used to do, Viljoen made a long speech, saying that Madero loved the Indians. Then the governor of the state made a speech. Then the two civilized men seated themselves on the ground and awaited an answer. For two long hours not a word was spoken. The grizzled old Yaqui chief sat silent as a Sphinx. The Indians sat like stone images. The civilized men fidgeted around and finally Viljoen got up and made another speech, an hour long. Then the governor of the state spoke again, with more kindness than before. The two men waited another two hours of silence. The chief did not speak; the Indians only pulled at their pipes. Viljoen and the governor tried to make more speech each. Fourteen hours had passed; the morning sun was high in the sky; the two civilized men, not as stoical as the Indians, were nerve-wrenched. And finally the old chief spoke these words: "What about our stolen lands? You haven't said a word of them. Go, and come back only when you can give us back our lands." The two civilized men were glad enough to get away alive.

The Indian problem is only one of the thousands of problems that await solution by Baby Mexico—when it grows up. Another problem is how to get a middle-class of people, a backbone for the government. A Mexican youth who has gone to college immediately insists on a place in the government. He won't be a tradesman, a merchant, white collars and cuffs, all the rest of his life, for him, with lots of homage and little work. The only place he can find these things is in the government employ. To every "educated" Mexican, the government appears to be only an institution in which he can find a berth. That's how revolutions start.

In the United States there are millions and millions of homes of happy contented folks, the backbone of the nation, who never worry about the government unless they see it going too far wrong; they settle that in about a dozen hours on the next election day, and then go back to their duties, of raising good children and maintaining contented homes. Mexico still has to find a place in her social scale for such a class as this. In Mexico you are either an "aristocrat" or you're an ignorant Indian. Let Mexico alone is good advice. It's not only a baby nation learning to walk but it also strangely resembles a bomb loaded with a lot of problems that Uncle Sam doesn't want to touch.

WOULD GIVE PRESIDENT POWER TO INCREASE ARMY

WASHINGTON, May 8.—A resolution that would permit the President to increase the regular army above the 100,000 statutory limitation was introduced in the senate yesterday by Chairman Chamberlain of the military affairs committee.

N. Y. GIRL TO WED PRINCE

ROME, May 8.—Formal announcement of the engagement of Prince Francesco Rospiigliosi and Miss MacDonald Stallo of New York has been made here. The marriage of Miss Stallo into the Rospiigliosi family will increase the number of American wives in the family to four.

HERMOSA BEACH JUBILEE
HERMOSA BEACH, May 8.—Members of both the Chamber of Commerce and the City Council will support the two-day pier celebration to be held in this city on Saturday and Sunday, May 16 and 17. A confetti battle, shower of roses, Junior Vanderbilt race, municipal dancing party on the pier and musical program by Thomas Taylor Drill and 100 voices will be features.

THE CLOUDS HAVE LEFT THE SKY

The clouds have left the sky,
The wind hath left the sea,
The half-moon up on high
Shrinketh her face of drear.

Behind the western bars
The shrouded day retreats,
And unperceived the stars
Steal to their sovran seats.

And whiter grows the foam,
The small moon lightens more;
And as I turn me home,
My shadow walks before me.
—Robert Bridges.

Coughed for Three Years
"I am a lover of your godsend to humanity and science. Your medicine, Dr. King's New Discovery, cured my cough of three years' standing," says Jennie Flennings, of New Dover, Ohio. Have you an annoying cough? Is it stubborn and won't yield to treatment? Get a 50c bottle of Dr. King's New Discovery today. Relief or money back. 50c and \$1.00, at your druggist.

Santa Ana Painless Dentists, 102½ East Fourth St. Main 253.

BEGIN ON CONTRACT HERE NEXT MONDAY

Mayor Oscar Ford Takes Civil
Engineer Into
Firm

Riverside Press: Mayor Oscar Ford, who a week ago was awarded a \$40,000 contract for road building by the Orange County Highway Commission, signed up the papers in the contract yesterday and will send down his outfit of men and teams on Monday to start in on two work. C. E. Bressler is associated with Mr. Ford with a working interest in the contract, and will have the direct management of the work. Mr. Bressler is a civil engineer with twelve years of experience in road building in the east and in the state of Washington, and Mr. Ford feels that he has placed his contracting interests in very capable hands in admitting Mr. Bressler into a partnership interest. The mayor is entirely too busy with city affairs to devote much time to the contracting business he has followed for many years. The contract calls for the building of eight and a half miles of concrete road in what is known as section 1 of the Newport Beach and Newport avenue district of the Orange county highway system. The highway commission furnishes all materials—Mr. Ford's contract is only for the actual work of construction. He will send down about thirty-six head of stock and will employ about thirty-five men on the job, which will take several months to complete.

The road will be built in the form of a Y, one end starting at Santa Ana and the other at Tustin, and coming together at a point about four miles west of Tustin, extending from that point on toward Newport.

The force of men and teams is now engaged in the work of building the race track at the new county fair grounds and will have this work completed by the end of the week.

MRS. A. R. SMITH ENTERTAINED FOR SON'S FIANCEE

(By Staff Correspondent.)
ORANGE, May 8.—Mrs. A. R. Smith of 524 East Chapman avenue entertained at bridge yesterday afternoon in honor of Miss Russell of Modesto, fiancée of her son, Harry T. Smith. Prettily adorned in a color scheme of yellow and white, the Smith home was fragrant with Cecil Bruner roses, whose beauty was set off with ferns. Prizes for the play were given to Mrs. A. H. Domann who received first award and to Mrs. Winters of Los Angeles who won second award. There was also a beautiful guest prize, a luncheon set, presented to Miss Russell. During an intermission in the play a delicious two course luncheon was served at the tables. Miss Fae Mellor and Miss Maurine Keller assisting the hostess. Twenty-eight guests were seated. Miss Russell, who has been a house guest of Mrs. Smith for the last few days left this morning for her home in Modesto, Mrs. Smith accompanying her as far as Los Angeles.

To announce the engagement of Miss Ella Sutton to Mr. Walter Kogler, a reception was given yesterday afternoon by Miss Mae Ainsworth at her home on East Chapman avenue. Bouquets of pink and white carnations clothed the rooms with beauty. In the dining room the blinds had been drawn and the soft glow of candles illuminated the table, which had been prepared with great care and taste. At each plate the guests found tiny May baskets, each just large enough to hold two carnations and a card upon which were small photos of the betrothed couple and the date of the approaching wedding, June 3rd. In this way the announcement was made. The luncheon was served in three courses. The afternoon was gaily spent with games and contests. Miss Sutton was prize winner in a guessing contest, Miss Merle Dalton took honors in a unique game of wringing a May pole. Mrs. Jesse Ainsworth excelled in making a bride's trousseau, and Mrs. C. A. Schmidt was the winner in a test of a housewife's ability. The invited guests were as follows: Miss Ella Sutton, Mrs. C. A. Schmidt, Mrs. Jesse Ainsworth, Mrs. B. J. Fletcher, Mrs. Margaret Jasper, Mrs. Elmer Yordy, Mrs. F. B. Reeves, Miss Laura Ott, Miss Merle Williams, Miss Ruby Campbell, Miss Ruby Winterrowd, Misses Carrie, Alma and Dora Kogler, Miss Vera Johnson, Miss Pearl Columbia, Miss Nellie Ainsworth and Miss Mae Ainsworth.

A regular meeting of the Fraternal Aid Association was held last evening in the I. O. O. F. hall. One new candidate was initiated and nine applications were received.

Mrs. E. C. Parsh passed away yesterday afternoon at her home on South Cambridge street. She has been in a critical condition for a long time, and death was not unexpected. No funeral arrangements have been announced.

Mr. and Mrs. W. C. Waechter entertained with a six o'clock dinner Wednesday evening at their home on East Washington avenue in honor of Mr. and Mrs. C. W. Paxton and C. L. Valentine, who are to leave next Tuesday for Iowa and Nebraska.

Mr. Valentine is going on a business trip and will not be away but a few weeks, but Mr. and Mrs. Paxton will visit for about three months. The evening was a most enjoyable one not soon to be forgotten. Those present were Mr. and Mrs. C. W. Paxton and two children, Mr. and Mrs. C. L. Valentine, Mr. and Mrs. Ray Valentine and son, Mr. and Mrs. A. Fry, and Mr. and Mrs. W. C. Waechter and sons Orlo and Fred Hobbs.

Mrs. Annie L. Bush of Long Beach is making a visit with relatives and friends in this vicinity.

H. J. Lewis who has been visiting at the V. Ford home on East Palmyra avenue, has gone to Los Angeles to spend some time.

W. E. Crow and family who have been living on North Orange street, left Wednesday afternoon for Twin Falls, Idaho, to make their home.

C. J. Overshiner was in Long Beach Wednesday to attend the funeral of his cousin, H. C. Ballard, who dropped dead on the pier a few days ago.

C. H. Post spent Wednesday in Los Angeles.

Mrs. Fred Mickert is quite ill at her home on North Center street.

Mr. and Mrs. M. D. Brackney of West Chapman avenue left yesterday for Forest Grove, Oregon, where they expect to spend the next two months.

Mrs. Flora E. Zimmerman and children have moved to Santa Ana to make their home.

Fred Herpolshimer has gone to

ATTEMPT MADE TO ROB BANK AT FULLERTON

FULLERTON, May 8.—An unsuccessful attempt to burglarize the Farmers' and Merchants' National Bank at Fullerton was made about midnight Wednesday, when at least two men, unidentified, effected an entrance to the building at Spadra and Amerige avenues through a trap door in the sidewalk on Amerige avenue.

A burglar alarm system recently installed in the bank frustrated the attempted robbery, for as soon as the combination lock of the steel door leading to the safe deposit boxes was turned, the machinery of the alarm system was set in motion and the would-be robbers took flight, leaving the building hastily and making their escape in such a way as to make detection difficult.

Officers of the bank, while searching for clues yesterday found a quart bottle of nitroglycerin lying beneath a desk near the safe deposit vault. It is believed here that they were the same gang of desperadoes who last week attempted the robbery of the Bank of Norwalk.

The ringing of the alarm was first heard by Tom Gillette, who sleeps in the Central Garage, directly across the street. Gillette immediately telephoned Cashier Clyde Crandall, who in turn notified President E. K. Benchley, and the two officials arrived there in a few minutes.

Meanwhile a large number of nearby residents had been aroused by the alarm and a man hunt was at once organized, but the yeggs had made good their escape.

That their plans had been made with a fair knowledge of the bank and its surroundings is evidenced by the careful manner in which they made their entrance and exit. It is the belief of the local authorities that a lookout was stationed in an automobile near by where he could command a view of the street.

The bank is affiliated with both the California Bankers' Association and the American Bankers' Association, which organizations have at the disposal of the members the use of both the Pinkerton and Burns detective agencies.

SPECIAL CARS TO CARRY WOMEN TO CLUB BIENNIAL

Special cars will be provided by the Salt Lake road to carry from Los Angeles to Chicago the delegates and others who will attend the biennial convention of the General Federation of Women's Clubs, June 9 to 19, leaving that city June 5 at 9 o'clock a. m.

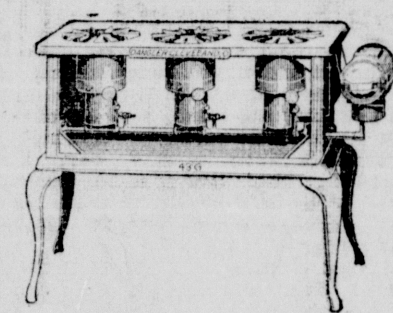

The route of the clubwomen will be to Salt Lake City, thence over the Denver and Rio Grande road to Denver and to Chicago over the Union Pacific and Chicago and Northwestern. Brief stops only will be made en route and the special cars will reach the Illinois metropolis June 9 at 7:45 a. m. Reduced fares have been made for the round trip.

Blue bows will be worn by the delegates and those receiving them at the station in Chicago will wear yellow bows. Boy Scouts will act as pages and give assistance in carrying baggage to cars and cabs. Hotel la Salle will be headquarters for California, Oregon and nine other states. Mrs. George W. McCoy is chairman of transportation.

All club presidents in California are asked to send the names of their delegates with addresses to Mrs. Lillian Pray Palmer, 702 Ivy street, San Diego, at once.

Take the elevator to our new Suit department and see how much you can save, at Gilberts.

The Dangler Blue Flame Oil Stove

This line stands unequalled—perfect in operation and construction. The strongest feature of this Blue Flame Wick Oil Stove is the seamless Drawn Burner Tubes, which prevents leaks and keeps dirt and sediment from the wicks.

No soldered seams to melt and cause smoke and disagreeable odors. No other oil stove is so simple to operate or easy to regulate.

Note that the burners are close to the top, insuring a quicker and hotter flame than any other oil stove on the market.

THE POWER OF PENNIES

Two New Jersey pastors have been rebuking their parishioners for making penny contributions, taking care, however, to declare that they were not condemning persons who gave pennies because they could afford no more.

The pastors condemned those who could well give dollars but who gave only pennies and nickels. The speakers deplored the fact that in their particular churches the burden of the expense was carried by the poor, who gave too much.

There is a curious coincidence between the utterances of these two pastors and a showing recently made that the prosperity of even the fashionable church, St. George's, New York, rested mainly, not upon its rich members, but upon the poor people, who by their pennies and nickels piled up \$18,000 a year.

The pennies are not to be despised in any enterprise. The great Standard Oil trust and the sugar trust are not above taking good care of the pennies, even to the eighth and sixteenth fraction. And the fractions count up into dollars by the millions.

It is the pennies of the poor, not the dollars of the rich, that form the foundation of almost all honest business. It is the pennies of the poor that pay the great volume of the taxes.

They support the schools and sustain the government.

They are the foundation of nearly all enterprise, from the uncounted little transactions of every day to the great industrial and trade movements that make the prosperity of a nation.

It would seem, then, from the layman's point of view at least, that small offerings are not to be discouraged. In the case of a church contribution the self-sacrifice involved is the best part of the gift.

The widow's mite was a better gift than is the millionaire's million. It may not go as far toward building a great church edifice, but it goes further toward building up a human soul, which is the church's purpose.

RAILWAY ACCIDENTS

Resistance by the Southern Pacific Railway Company to the workmen's compensation act will not bring it any public sympathy. At best, the contention that it is an interstate and not a local corporation, is a purely technical question, one that will not be of long avail with the expected improvement of national liability laws. No matter what administration is in power at Washington, liability legislation much like that now in operation in California cannot be very far off.

The justice of workmen's compensation is seen easiest, both from the employer's and employee's point of view, in the railroad business. Not only is the hazard more directly connected with the occupation there than anywhere else, but the employer can in this case better protect itself by shifting the load, than in any other occupation. The expense of employer's insurance is a feature of railroad expense that would be most readily recognized. The company will add the cost to its regular operating expenses, and the public will pay, in the long run, for the accidents of the railroad employees through passenger fares and freightage costs.—California Outlook.

There is some stir over Stanton way. To tell the truth, there is quite a stir all over the Second supervisorial district, but just recently there has been a cloud of dust raising from the incorporated city of Stanton. It seems that someone has been clawing up the earth out there trying to get Will Kennedy to run for supervisor. Kennedy is a city dad or a city clerk or something in the city that is named after one of the best known politicians in this end of the state. At least, he was one of the best known a few years ago. His side of the political boat has been shipping water for quite a while now. Anyhow, Kennedy was picked upon as one more likely candidate for supervisor. Apparently they haven't enough candidates out in the Second district already. There are only three, and really to make the thing as lively as it ought to be there ought to be half a dozen anyhow. There is Tom Talbert, who is supervisor from that district and chairman of the board. And there is Van Winkle and Moore. They are all of them stirring around quite a bit to be sure, but really there must be room for another candidate.

That is the way a bunch talked to J. D. Junkin of Garden Grove. Junkin was willing to agree, but he could not see that he ought to be the person seized upon in that way. He shook his head, tied a string around another dollar's worth of sugar and made change for a Garden Grove chili pepper grower.

If not Junkin, who not Will Kennedy? The answer to that question was about to be secured when the watchman sighted the cloud of dust out Stanton way. They have Kennedy thinking it over all right.

Lester has a flawless record and even his enemies, if he has any, are forced to admit that he has conducted his office according to the strict letter of the law even if he has caused disappointment to some who might have been disposed to take short cuts to attain their ends.

The above is the way the political writer who sends his dope to the Anaheim Gazette, where it is printed under a Santa Ana date line, has one of the Orange county officials written up in a recent letter.

Looking over the various papers published in this county, the Watchman has no difficulty in becoming aware of the fact that the candidates are beginning to circulate in real earnest. When a candidate reaches a town it is seldom indeed that he fails to go around and tell the editor just

why his particular case calls for particular consideration. An editor can look the wisest of all the fellows the candidates goes up against. At least, that is the consensus of opinion of some of these candidates who have tried it.

Looking over the papers, the Watchman hasn't a bit of doubt but that two candidates for county superintendent of schools have been out seeing the editors the last week. One of these candidates is a woman, Mrs. E. B. Norman of Santa Ana, and the other is County Superintendent of Schools Mitchell himself.

The Santa Ana Bulletin, Democratic, has this:
"All county officers run on a strictly non-partisan ticket, and so far as this paper is concerned, we propose to abide by that splendid law. We don't care what a man's politics is, if we think he is the best man to serve the county, he shall have our hearty support."

The Bulletin has already demonstrated its attitude on most of the county candidates, and non-partisan is that attitude. Among those supported by the Bulletin are Sleeper, Joplin, Jerome, W. B. Williams, Leck and Lamb.

There has been quite a stirring around among some of the politicians the last week. The Watchtower has it for straight that C. C. Chapman of Fullerton has been in conference with some of the enthusiastic Republicans of this section, and that Chapman has agreed to be a candidate for the Republican nomination for governor.

Candidates for governor among the Republicans have been mighty scarce. On a wild guess, the Watchman theorizes to the effect that if the Republican leaders over the state had much hope of beating Hiram W. Johnson there would be a lot more Republican leaders anxious to run against him.

Some of the members of the Santa Ana bar have been talking enthusiastically over their intended support of two supreme court judges, Judges Shaw and Angelotti. These attorneys, regardless of political affiliations, say that they have found the judges to be fair and able men. Attorney E. E. Keech says that this section should be especially interested in promoting the candidacy of Judge Lucien Shaw, for the reason that Judge Shaw is well informed upon irrigation laws. In fact, Judge Shaw is spoken of as an authority and a master upon water matters.

FOR THE WORKER IN SOIL

WASHINGTON, May 6.—Colony houses are the best houses for poultry. Uncle Sam has received this after an exhaustive investigation conducted by Alfred R. Lee, junior animal husbandman of the poultry investigations branch, Department of Agriculture.

Lee has been raising chickens at Beltsville, Md., so that farmers throughout the country, who go in for chicken raising as a business or a side line may have the most practical as well as scientific information available.

"The prime essentials in poultry houses are fresh air, dryness, sunlight and space enough to keep the birds comfortable," according to Lee.

"No particular house is adapted to all parts of the country," he concludes, "but generally speaking the southern houses should have more exposure than northern structures. The location should have good water and air drainage so that the yards will be dry. The house should not occupy a low pocket or hollow in which cold air settles and it should be situated for convenience in management and adapted to the available land."

He declares poultry can be raised successfully on any well drained soil. Long stationary houses—the intensive system—saves steps, Lee believes, but the colony system works for healthier birds, because they get more range.

Such houses should be built to accommodate about one hundred hens; and located from 200 to 250 feet apart, so that the stock will not kill

been used for ornamental purposes for some years.

The blanched roots of the udo have a characteristic flavor, and if properly cooked furnish a delicious dish.

It is a plant requiring little care, and with the same space devoted to it yields about the same amount of food as asparagus. It grows to a height of ten feet or more and can be forced each spring for at least six years. Aside from its value as a food plant, the udo is regarded as a distinct find for bee keepers inasmuch as its flowers attract great swarms of honey bees. It grows well in moist regions, particularly New England, the Atlantic states, as far south as the Carolinas, in the rainy region of Puget Sound and in the trucking sections of California.

Perhaps the greatest difficulty connected with the cultivation of the udo is the blanching of the shoots. It is these that are regarded as the real delicacy, for the flavor of the stems when green has a certain rankness which is unpleasant to most palates. Various methods of blanching the early shoots have therefore been experimented with. In California, excellent results have been obtained by mounding up the earth in the early spring over each plant much as is done with asparagus. Elsewhere, however, the late frosts make the soil too cold and the shoots are slow in coming through.

Udo soup and salad are among the dishes suggested by the department.

FIGS BOTH TASTY AND ECONOMICAL FOR HOUSEHOLD

While we are not able to enjoy the delights of fresh figs, dried figs are so delicious and have so many culinary possibilities that we should count on them as a staple fruit, writes Mrs. Christine Frederick in the Philadelphia Ledger.

Cooking brings out their extremely sweet and almost aromatic flavor. Now that prunes are no longer a despised side dish relegated to the boarding house table, and have jumped so miraculously in price, figs cannot be regarded in the light of luxuries.

Indeed, figs at 20 cents a pound are just as economical, if not more so, than prunes at 18 cents a pound, when we figure out the weight of the prune pits.

The most common form in which figs are to be found is in the square, pressed blocks in which they are sold in fruit and other stores; but a better fig for home use is the so-called "cooking fig," which can be bought at the best groceries at a less price than the "pitted fig." Small and almost black "cooking figs" can also be secured from time to time, and are particularly delicious.

The best method of cooking figs is the slow stewing process, which develops the quality of the fruit without toughening it. These cooked figs can be removed from the syrup, stuffed with nuts or marshmallows and make a delicious sweetener for children, far preferable to the ordinary manufactured candy.

In stewing figs add a bit of lemon rind, preserved ginger or candied pineapple, which will give a unique and delicious flavor.

Here are two tried recipes:
Stuffed Figs—Remove the inside of steamed or fresh figs and mix the part removed with chopped nuts moistened with a syrup of sugar and tart fruit juice (cooked or uncooked). Roll in sugar and serve.

Fig Pie—Cut fine a half pound of fresh or dried figs and let simmer for half an hour in three-fourths of a pint of water, one and a half teaspoonsful of sugar being added when nearly done. When cool add well-beaten yolks of two eggs. Bake in a pudding dish in a moderate oven until the yolks are set. Make a meringue for the top from the whites of the two eggs and two tablespoonsful of sugar. Let this brown and serve when cool.

Houston, county, Texas, goes dry.

ORDINANCE NO. 113

An Ordinance Regulating the Traffic Over Public Highways in the County of Orange.

The Board of Supervisors of the County of Orange, State of California, do ordain as follows:

Section I.
Every person riding, driving, propelling or in charge of any vehicle upon any public highway within the County of Orange, including any other vehicle at any place upon such highway, shall turn to the right hand side on passing, and on all occasions shall travel on the right hand side of such highway and as near the right hand side thereof, as possible.

Section II.
Every person riding, driving, propelling, or in charge of any vehicle, upon any highway within the County of Orange, having but two wheel tracks, or well bent wheels, shall, when passing, be obliged to turn to the right and surrender the left hand track, upon meeting and passing any vehicle going in the opposite direction.

Section III.
Every person riding, driving, propelling, or in charge of any vehicle, shall in overtaking or passing any other vehicle, or upon any highway within the County of Orange, pass to the left of said vehicle, and in case of such vehicle being so overtaken and passed, shall give way to the right.

Section IV.
Every person riding, driving, propelling, or in charge of any vehicle moving slowly in, along or upon any highway within the County of Orange, shall keep such vehicle as close as possible to the right hand side of such highway, allowing more swiftly moving vehicles thereon, a passage on the left.

Section V.
Every person riding, driving, propelling, or in charge of any vehicle in or upon any highway within the County of Orange, shall, in turning to the right into another highway, turn the corner as near the right hand side as possible.

Section VI.
Every person riding, driving, propelling, or in charge of any vehicle upon any highway within the County of Orange, shall, in turning to the left into another highway, pass to the right of, and beyond the center of the highway intersection before turning.

Section VII.
It is hereby declared unlawful for any person to ride, drive or propel any vehicle over or along any highway, alley, or other public place in the County of Orange, during the period of one-half hour after sunset of any one day, and one-half hour before sunrise of the succeeding day, unless there is attached to such vehicle a lamp showing a white light visible, under normal atmospheric conditions, at least three hundred feet in the direction in which such vehicle is being propelled, and also showing a red light, visible under normal atmospheric conditions, at least three hundred feet in the reverse direction; said lights to be carried on left side of such vehicle.

Section VIII.
It shall be unlawful for any person to ride, drive or propel any vehicle or permit to be ridden, driven or propelled, any traction engine, road engine, hauling engine, trailer, steam roller, automobile

truck, motor or other vehicle upon or over any improved highway in the County of Orange, when the face of the wheels are fitted with flanges, ribs, chains, cleats, lugs or spikes; provided, however, that traction engines, road engines or hauling engines which are equipped or provided with cleats or lugs shall be permitted to pass over said highways if said cleats or lugs are fastened upon all of the wheels of such vehicles not less than two and one-half inches wide, and not more than one and one-half inches high, and so placed that no less than two cleats or lugs in each wheel shall touch the ground at all times and the weight shall be the same on all parts of said cleats or lugs.

Section IX.
It shall be unlawful for any person to ride, drive or propel, or cause or permit to be ridden, driven or propelled, any traction engine, trailer, steam roller, automobile truck, motor or other power vehicle over or upon any of the improved highways of the County of Orange, for shall any object be moved over or upon any such highways upon wheels, rollers or otherwise in excess of a total weight of ten and one-half tons, including the vehicle, object or contrivance and load, without first obtaining the permission of the Board of Supervisors of the County of Orange as hereinafter provided; provided further that no weight in excess of three tons shall be carried on any axle of any such vehicle.

Section X.
It shall be unlawful for any person to ride, drive or propel, or cause or permit to be ridden, driven or propelled, any vehicle over or upon the improved highways of the County of Orange, the weight of which vehicle, including load, shall exceed seven thousand pounds upon any inch in width of the tire, wheel, roller or other object, unless permission is first obtained from the Board of Supervisors of the County of Orange, as hereinafter provided.

Section XI.
It shall be unlawful for any person to ride, drive or propel, or cause or permit to be ridden, driven or propelled, any vehicle carrying a weight in excess of three tons, including the vehicle upon or over any improved highway of the County of Orange at a speed greater than fifteen miles an hour, and no such vehicle carrying a weight in excess of six tons, including the vehicle, shall be operated upon any such highway at a speed greater than six miles an hour when such vehicle is equipped with iron or steel tires, nor greater than twelve miles an hour when the vehicle is equipped with tires of hard rubber or other similar substance.

Section XII.
It shall be unlawful for any person, firm or corporation to ride, drive, draw or propel, or permit to be ridden, drawn, or propelled, along or upon any improved highway in the County of Orange, any vehicle, traction engine, harrow or disc harrow, disc plow, or other implement that will tear up, or in any manner disturb or damage the surface of the highway.

Section XIII.
The Board of Supervisors of the County of Orange may grant permission for the moving of heavy vehicles, loads, objects or structures in excess of a total weight of ten and one-half tons over the improved highways of Orange County, upon application in writing being made therefor, and under such restrictions as said Board of Supervisors may prescribe.

Section XIV.
The term "vehicle" as used herein shall be deemed to include every wagon, hack, coach, carriage, omnibus, car, pushcart, bicycle, tricycle, automobile, or other conveyance, except baby carriages, in whatever manner used by any person or force or power the same may be driven, ridden or propelled, which is or may be used for or adapted to pleasure riding, or the transportation of passengers, baggage, merchandise or freight upon any highway; and every draft or riding animal, whether driven, ridden or led, or is standing still, excepting that an animal or animals attached to any vehicle shall, with such vehicle, constitute one vehicle.

Section XV.
The words "improved highway" when used in this ordinance means any highway of the County of Orange which is improved, or may hereafter be improved, by the State Highway Commission, or by the Highway Commission of the County of Orange.

Section XVI.
Nothing in this ordinance shall apply to any vehicle or the regulation thereof, or the regulation of the use of the highways as provided for by chapter 326 of the Statutes of 1913, as passed by the Legislature of the State of California, Session of 1913, Statutes 1913, page 639.

Section XVII.
Any person violating any of the provisions of this ordinance, and being found guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not less than fifteen dollars and not more than two hundred and fifty dollars, or by imprisonment in the county jail for a period of not more than ninety days, or by both such fine and imprisonment.

Section XVIII.
All ordinances and amendments thereto heretofore passed and before the expiration of said fifteen days take effect fifteen days after the passage thereof, and shall be published with the names of the members of the Board of Supervisors voting for and against the same, for at least one week in the Santa Ana Daily Evening Register, a newspaper of general circulation published in the County of Orange.

Signed by the Chairman of the Board of Supervisors of Orange County, on the 6th day of May, 1914.

T. B. TALBERT,
Chairman of the Board of Supervisors.

Attest:
W. B. WILLIAMS,
(Seal) Clerk of the Board of Supervisors.

I, W. B. Williams, County Clerk of the County of Orange, State of California, and Ex-officio Clerk of the Board of Supervisors thereof, do hereby certify that at a regular meeting of the Board of Supervisors of said Orange County, held on the 6th day of May, 1914, at which meeting there were present Supervisors T. B. Talbert, Chairman (President), H. E. Smith, Wm. Schumacher, Fred W. Struck, Jasper Leck and the Clerk, the foregoing ordinance consisting of 18 sections, was considered section by section, and each section separately adopted, and that the said ordinance was then passed and adopted as a whole by the following vote, to-wit:

Ayes: Jasper Leck, H. E. Smith, Wm. Schumacher, Fred W. Struck and T. B. Talbert. Noes: None.

In Witness Whereof, I have hereunto set my hand and affixed the seal of the Board of Supervisors of said Orange County, this 6th day of May, 1914.

LEAVE MONDAY FOR EUROPE

The Rafferty-Dresser Party Has Delightful Itinerary for Long Trip Abroad

Mr. and Mrs. Fred Rafferty and Miss Charlotte E. Dresser will leave on Monday, May 11, for an extended European trip. They will make but one stop on their journey across the continent, spending a day at the former home of Miss Dresser in the Berkshire hills district of Western Massachusetts.

Sailing from Boston on May 19, by the White Star liner Arabic, they will land at Liverpool. A tentative itinerary of the early part of their journeying abroad includes a Thames river trip, a jaunt through the southwestern English coast country with visits to quaint Clovelly and Stonehenge and the Channel Islands; and a tour of the Chateau district of France after landing at Saint-Malo on the French coast. In their several months stay abroad they will see much of the same country they visited in a previous trip but will see it in a more leisurely way, and with deviations from the beaten routes of travel. France, Belgium, Germany, Italy and Sicily, with special visits to the Baireuth Music Festival, the Pyrenees, the Alps, and the lake district of Italy, are all in the itinerary. Christmas if possible will be spent in Rome, February in Egypt, March in the Holy Land, with visits later to Constantinople, the Ural river district and Southern Spain, the party embarking at Gibraltar for the homeward trip to the United States.

A Kitchen Shower

A kitchen shower was the interesting event with which a number of young women of West Orange yesterday afternoon honored Miss Neva Ralph who is soon to become the bride of George Danuck. Miss Tillie Handick, sister of the groom-to-be, was hostess at the very pretty afternoon function which was held at her home.

Various guessing contests were enjoyed in addition to the shower of gifts. Miss Clara Leichman won first prize in the guessing contests, the second prize going to Miss Ralph, the bride-elect, and the consolation prize being awarded to Miss Emma Ristow. Delicious refreshments of sandwiches, olives, ice cream and cake and coffee were served on small tables. Red ribbons strung with cunning Cupids were caught at the ceiling and from these were attached to pretty baskets of red geraniums that centered the tables.

The young women joining in the affair were Miss Handick, the hostess; Miss Neva Ralph, the honoree, and Misses Little and Hazel Lauchau, Clara Leichman, Meta and Gertrude Rogers, Tony and Emma Ristow, Mary Henrick, Cora Hughes, Rosa Krueger, Agnes Dierker, Ruth Isenbrau, Tillie Handick; Mrs. Eric Kuechel, Mrs. George Dierker, Mrs. Herman Danuck.

Eminent Moose Speaks Tonight
Supreme Instructor Leonard Garver will lecture before Santa Ana lodge, Loyal Order of Moose, at their hall this evening. Mr. Garver hails from the Hoosier state and has visited more than 300 Moose lodges on his present tour. He is a very interesting and brilliant speaker and his lecture tonight will be a rare treat to the local organization.

MISS INWOOD TO WED

Daughter of Popular Methodist Pastor to Plight Nuptial Vows on May 29

The many friends of Rev. and Mrs. E. J. Inwood and of their daughter, Miss Grace, will be interested in the following notice from Riverside of the coming marriage of Miss Inwood:

"Miss Grace Inwood of Santa Ana has been visiting with friends in Redlands for the past few days, and yesterday was the honored guest at a kitchen shower given at the home of Miss Naomi Jennings. The news of Miss Inwood's engagement to George Edgar Armstrong will be of interest to her many friends here. Miss Inwood is the eldest daughter of Rev. and Mrs. Edwin J. Inwood, who at one time resided in Riverside. "The wedding will be solemnized in Santa Ana on the 25th of this month, and will hold general interest in Redlands, Riverside and Los Angeles, where the bride-elect has many friends. She is a graduate of U. S. C., and Mr. Armstrong was a student for two years at the University of Southern California. At present he is connected with the Southern California Edison Company of Los Angeles."

Met at the High School

The High School Parent-Teachers' Association met at the high school yesterday afternoon with a fair attendance. The president, Mrs. Theodore Winbiger, was in the chair. Misses Marie Harris and Ramona Clevenger favored the association with a splendid duet. They were accompanied by Muriel Lee. Mrs. Anna Gale, treasurer, gave the annual report. The election of officers resulted as follows:

President, Mrs. S. M. Davis; first vice president, Mr. Hammond; second vice president, Miss Behl; secretary, Miss Rosamond Norman; treasurer, Mrs. A. E. Chapman.

Mrs. Viola Norman gave a fine talk on "Character Building." A very pleasing feature of the afternoon's program was that by little girls from Jefferson school, also a drill of mechanical French dolls. They were very heartily encored.

Prof Cranston gave one of his usual practical talks, his subject being, "The Relations of the High School to the Home." Mr. Armstrong, representing the American Book Company was introduced and made a fine talk.

The next meeting of the association will be a father's meeting and will be held the first Tuesday evening of June. Mrs. Hall, Mrs. Darnell and Miss Haskins were appointed as a committee to arrange the program. The committee for yesterday's meeting, composed of Mrs. Gowan, Mrs. Thomas, and Miss Rhea, served delicious fruitade and wafers. They were ably assisted in serving by Misses Thoretta Taylor, Claire McPhee and Henrietta Gowan.

The Athena Club

The Athena Club met yesterday afternoon with 125 students and teachers present, in the Music room of Poly High. The most successful program of the year was given. It included a declamation by Lois Smith, piano solo by Clara Wilson, reading by Ruth Visel, vocal solo by Dorothy Mead, talk by Ruth Harper, essay by Annie Jewell, and a playette, "Six Cups of Chocolate," in which Misses Wilhelmina Cavins, Helen Roberts, Margaret Roy, Dorothy Dean, Elsie Lutz and Flossie Zerman participated.

Economics Meeting Held

The Second section of the Ebell Household Economics met on Wednesday afternoon at the Whitted Apartments with Mrs. O. K. Forgy as hostess. The committee in charge of the program included the hostess, Mrs. W. A. Flood, and Miss Ava Wells.

Miss Sumner of the Summer Art Shop gave a most interesting talk on "Pictures and Picture Framing," illustrating the subject by actual process as she talked. Miss Wells talked on the furniture of different periods, showing pictures of furniture styles that have marked various periods of time. The subject was a fascinating one.

Following the program, dainty refreshments were served informally, a feature being the cunning French pastry baskets trimmed with Cecil Brunner roses, in which luscious strawberries were served.

CARL G. STROCK

Jewelry and Planos 112 E. Fourth St. Santa Ana

It Is Not So Many Years Ago

that we had one of the smallest shops in Santa Ana. But it did not remain like that long.

People who came once came again, and then they brought their friends, until now, with stores in Santa Ana, Orange and Fullerton, our business is one of the large ones in Southern California.

There isn't any secret of our success—it is just a matter of giving satisfaction to everyone who buys from us. It doesn't matter whether our customers live in Garden Grove, in Huntington Beach, Tustin, Santa Ana, or anywhere else. We guarantee to satisfy them in every way or return their money.

The selling of clothes is to us more than just a business. It is our life's work. We take just as much pride in fitting a man in a suit of clothes as the artist takes in painting a masterpiece.

And it is because of this that the clothes we sell look a little better, fit a little better, ARE a little better than ordinary clothes

AMUSEMENTS

Promptly at 7:45 this evening at the College of Music will begin a display of Spanish "r'r's," French "nasals" and German "gutturals." As we sometimes estimate the character of a person by his habitual expressions of speech, so may we get an idea of the character of a people by its language. The high school students will undertake to show some of the qualities of German, French and Spanish. The French people got their name from the French word "franc," meaning frank. Their language shows the frankness and freedom of the French nation. The ponderous German words reveal the seriousness and coldness of the German mind. A musical Spanish portrays the warm Latin temperament. Special scenery has been constructed by the Manual Arts and Art department of the school.

At Clune's

"Old Reliable" (Vitagraph), Drama. This two-part subject introduces a beautiful character, "Old Reliable," portrayed by Van Dyke Brooke, who made of it such a lovable old fellow, in his tribulations, that one almost forgot it was a picture. There was some frivolousness in some of the acting that marred one or two scenes and the continuity of the story seemed broken in the second reel. However, it is enjoyable and the finale bears with it a lesson and a moral that is wholesome. This picture is shown Sunday only.

Tomorrow evening the management presents "The Brass Bowl" (Edison) Drama, a two-part picture from the story of Louis Joseph Vance. It is not so vivid or so convincing as the story which took more time to fill in an explain—it is just such a story as would make a four-reel film. The reviewer feels that if he had not read the story he would have thought more of the picture which, although it surely fails to convince strongly, tells a good tale and will furnish entertainment. The acting which entails the playing of two characters by the same actor, Ben Wilson, is commendable if not at any time brilliant.

The two-reel Vitagraph drama, "The Crucible of Fate," was a splendid offering in the moving picture program at Clune's Santa Ana Theater last evening. As advertised, it is one of the best acted and staged that has ever been shown on a local screen. It is chock full of thrilling and realistic scenes, the one showing the theater fire being especially awe-inspiring.

In the vaudeville numbers, the "Musical Coppelias" in their electrical musical novelty was a success. Their singing of "The Glow-Worm" with their costumes illuminated with electric lights was especially good.

Manager Russell has held over two popular numbers from the first half of the week, these being the "Roberts Duo" and De Rosa's Car Circus. This affords an extra opportunity for all to see these excellent acts.

Ladies' Suits on sale, \$7.50 to \$15. Former prices were \$15 to \$30. You can save about ½ by buying your new suit at Gilberts.

Tustin Budget

Edited by Miss
Florence StoneCOMMITTEE NAMED
ON PUBLICITY DUTYCounty Dry Federation Appoint-
ed Leading Tustinites to Act
for This City

A publicity committee composed of W. L. Shatto, E. J. Cranston, A. E. Bennett, Mrs. Thos. Rawlings and Mrs. Sarah Brown was appointed at the "Dry Federation" meeting last week to segregate the Tustin territory and appoint sub-committees for the distribution of California Dry literature. A meeting of this committee was held Tuesday night at the home of Mr. and Mrs. Shatto. The territory was divided into eight districts and a committee of forty was appointed to see that this literature is promptly distributed.

There was a good delegation from Tustin to attend the Dry Federation meeting held in the First Congregational Church in Santa Ana last Tuesday night when a county federation was organized. A. E. Bennett was appointed to represent this district in the county organization.

Drug Store Changes Hands

The Tustin Drug Store has been purchased by Mr. N. G. Waterhouse, who has recently come to California from Indianapolis, Indiana.

Mr. Waterhouse has brought his family to Tustin and will occupy one of Mr. Hayward's bungalows on D street near Main.

Gas Assured for Tustin

The Southern Counties Gas Company has fully agreed to pipe the gas to Tustin provided a subscription of \$2000 is made up. The required amount has about been subscribed and gas is assured for Tustin in the near future.

EDITORIAL

A PAVED STREET

Every Tustinite has read with great interest about the move made by the First street property owners to further the paving of that street. Improvements will be coming this way when the owners on East First between the Santa Fe tracks and Santa Ana city limits get operations under way which will result in the paving of that street.

The property owners are desirous of paving a twenty-foot strip in the center of First, leaving the balance to be paved by the city.

Now suppose the city council does meet these property owners halfway and do as they request, and then suppose the highway commission begins right away to continue building the state highway in from D street, Tustin, to the Santa Ana city limits. Then we will have a paved street all the way in for automobiles and carriages and it might pay some one to run auto-buses from Santa Ana to Tustin for ten cents a ride, the same as they do to Orange.

While things are coming this way the Pacific Electric company might be induced to run the cars out.

There are few joys in this world that can compare with the joy of achievement. Set your mark and start climbing toward it. You'll reach it if you keep at it. If you are in Maine you can't wish yourself to California. You can't get there over night, either. But you will get there sometime if you start and keep going, even if you go on your hands and knees."

Anti-Cigarette Sunday

Last Sunday was Anti-Cigarette Sunday for temperance workers and at both Sunday schools in Tustin part of the time was given over to these workers for the purpose of giving the children instruction regarding the injurious use of such things. The chalk-talk by Superintendent David Hunt of the Advent Christian Church Sunday school was fine and the children were much interested.

A NEW PRINCIPAL
FOR CITY SCHOOLSC. A. Marcy, Fillmore, Cal., to
Succeed Prof. Langworthy,
Lately Resigned

Following the resignation of Mr. L. R. Langworthy as principal of the Tustin school, which will take effect at the end of this term, the school board last Saturday night called C. A. Marcy of Fillmore, Cal., to take the position as principal next year.

Mr. Marcy has an excellent record. Having graduated from the State Normal School of Pennsylvania, he was asked to remain as a teacher in that institution and during the past two years he has successfully occupied the position as head of the schools of Fillmore.

Mr. Langworthy has been principal of the Tustin school for the past four years. During that time the school has grown rapidly and two new teachers have been added. His many friends here regret exceedingly to have Mr. Langworthy go away.

SOCIETY AND CLUBS

Kiser-Matthews

Miss Alice Ruth Matthews, daughter of Mr. and Mrs. H. E. Matthews, was married Tuesday afternoon to Dudley C. Kiser, son of Mr. and Mrs. L. B. Kiser.

The ceremony was performed at the home of the bride's parents by Rev. Otto S. Russell of the First Baptist church in Santa Ana.

The wedding was a quiet one with only the members of the two families present, though the home was beautifully decorated for the occasion with pink roses and ferns and the ceremony was performed under an archway of ferns from which was suspended a horseshoe of bride's roses. A shower bouquet of maiden hair ferns and the same roses was carried by the bride, whose wedding gown was of white messaline and shadow lace.

After congratulations and serving of delicious refreshments the bride donned a going away costume of dark blue.

Mr. and Mrs. Kiser left immediately for a two-weeks' stay at San Diego.

Mr. Kiser is employed with the Tustin Lumber Company and they will make their home in Tustin where their friends will join in wishing them a happy future.

The wedding gifts showered upon the bride were notably fitting and handsome.

The Nightingale Club

The Nightingale Club of Tustin was entertained by Mr. and Mrs. Charles Johnson last Tuesday night, who are still members of the club although they have moved to Santa Ana, having purchased a home at Sixth and Rosa streets.

It was a merry May day affair with decorations of May baskets filled with fragrant flowers.

Progressive whist was played and later in the evening the small tables were transformed into receptacles for tempting refreshments.

Prizes for highest score were awarded to Mrs. L. A. Mayfield and Frank Hoffman.

Maurice Phillips was a guest of the club and entertained the company with several vocal numbers.

Besides the host and hostess the club members present were, Messrs. and Mesdames J. C. Stearns, James Pierce, Fred Poole, A. L. Swarthout, Frank Hoffman and Charles O. Artz.

The guests of the club were Mrs. A. L. Mayfield, Mr. and Mrs. Maurice Phillips, A. N. Ralph and Mrs. Sam Hill.

The School Picnic

In spite of the rain last Friday, the two boy wagons started to Orange County Park early in the morning with the Seventh and Eighth grade pupils on board together with chaperones and the picnic dinner while a number of parents went in their own automobiles.

It was like picnic days in the east when you are watching the clouds all day and wondering whether it is going to rain or stop raining.

When you are going you don't mind doing such delightful things as picnicking under difficulties and the day was enjoyed after all.

Tustin Literature Section

The Tustin Literature Section met Tuesday afternoon with Mrs. W. M. Belding. A good attendance attended the afternoon's meeting.

"Through Irish Eyes," by George A. Birmingham was read by Miss White and the remainder of the time was spent in the study of articles in "The World's Work," current number.

The ladies enjoyed very much a dainty luncheon of sandwiches, chocolate, olives and cake, served by the hostess.

W. C. T. U.

The next meeting of the Tustin W. C. T. U. will be held at the home of Mrs. P. H. Ebel on Thursday afternoon of next week.

This is to be a mothers' meeting conducted by Mrs. L. A. Cook and Mrs. Wm. Jones. A feature of the meeting will be a question box and all mothers of young girls going to high school are specially urged to attend. Out-of-town visitors are expected.

Birthday Party

There was an enjoyable little party to celebrate the eighteenth birthday of Miss Edith Higgins last Wednesday night at her home. Miss Edith's specially congenial friends were Mr. and Mrs. Geo. Prather, Jr., Misses Maud

Hells and Mabel Logan, Messrs. Chas. Cotant, Chas. Logan and Ralph Eells. The evening was delightfully spent with games and music.

Tustin Twelve

The members of the Tustin Twelve will have their regular monthly meeting next Tuesday afternoon with Mrs. Chas. Johnson at her home in Santa Ana.

Dinner Party

Mr. and Mrs. A. H. Squires, formerly of Tustin, now of Anaheim, their daughter, Mrs. Ethel Gifford of Oakland, and Mr. and Mrs. L. H. Findison were entertained at dinner last Sunday by Mrs. John Holt.

Were Surprised

Mr. Geo. Decker of the Tustin Hardware Company, with his wife were surprised on the eve of their departure on a trip to San Diego yesterday morning. The date was their twenty-fifth wedding anniversary and their friends had a wedding breakfast prepared when they came from their rooms in the early morning.

Philathea Class

The Philathea Class of the Tustin Presbyterian Sunday School held a very enthusiastic meeting at the home of Miss Emma Thorman Thursday afternoon. Those present were Misses Gertrude Lambert, Grace Hatfield, Avis Smith, Anna Carson, Margaret Tingley, Ella Ave. Ruth Rawlings, the teacher, Mrs. S. E. Tingley, and the hostess.

Delicious refreshments were served.

Surprise Party

There was a surprise party for Leslie Carson last night at the home of his sister, Mrs. Rain, upon the occasion of his birthday, which proved to be a very enjoyable family gathering. S. E. Tingley and family, Mrs. Wm. Jones and family and the members of the Carson home.

Berean Bible Class

The regular monthly business and social meeting of the Berean Bible Class of the Presbyterian Church was held Wednesday afternoon with Mrs. John Dryer.

The pretty home of Mr. and Mrs. Dryer was made unusually attractive for the occasion by floral decorations. In the reception room where the color scheme is yellow and white a handsome basket of California poppies lent their charm to the room while the adjoining room was decorated with pink roses and carnations to harmonize with the colorings there.

About twenty ladies were present, three of them guests, the others being members of the class.

The meeting was opened for the business session with the president, Mrs. Frank Logan, in the chair.

Devotional exercises were led by Mrs. Hollis Lindsey and was followed by reports of secretary and treasurer, also reports of different committees.

The president was instructed to give a message of sympathy from the class to Mrs. C. P. Marshall, one of their number who has been very ill.

The business meeting adjourned and an enjoyable social hour followed. Later in the afternoon refreshments of delicious tea, sandwiches and cake were served by the hostess, assisted by Mrs. Roland Stearns of Santa Ana and Mrs. Chas. Eells. The ladies present besides those already mentioned were Mesdames McCullough, Tingley, Whitely, Lawrence, Leiby, Cook, Moore, Phinney, Slusser, Colgan, Brookbank, Hughes, Kiser and Vanderbeck, Misses Bentley, Johnson and Stone.

TUSTIN PERSONALS

Mrs. E. L. Vanderbeck is a guest of Mrs. Chas. Eells this week.

Mr. and Mrs. Frank Logan and Mr. and Mrs. Earl Marshall motored to Pasadena last Monday. Miss Mabel Logan returned with them after a week's visit to Pasadena.

The friends of Mrs. C. P. Marshall will be glad to know that she is much improved after her serious illness of the past week.

Mrs. A. B. Rankin of Los Angeles is visiting her sister, Mrs. B. A. Long. The Jno. F. Pierson place on Holt avenue has been purchased by B. A. Long of Bishop, Cal. Mrs. Long and family have moved to their new home and Mr. Long will come later.

Miss Ray Bond of Pasadena spent this week end with Mrs. M. E. Phillips.

Mrs. S. A. Pritch and son Ray Sult, who have been occupying rooms at Mr. N. S. Long's home, left for Tulare county this week. They expect to be gone several months.

Mrs. Hollis Lindsey returned on Tuesday from a week's stay in Los Angeles.

Mrs. G. W. Pollard and Mrs. Walter Pollard spent the early part of the week in Los Angeles. Mrs. G. W. Pollard attended the meeting of the Presbyterian Missionary Society.

Jas. Bradford of Pasadena city has been visiting his old friend, L. A. Cook, in Tustin for the past week.

Mr. and Mrs. Roy Perrine and family have moved from Tustin to Santa Ana.

Miss Thma Swanson and daughter, Mrs. Carline, are visiting Mrs. E. M. Lawrence on the Browning ranch.

C. O. Artz and Frank Hoffman motored to Hemet on Thursday, returning Friday afternoon.

Miss Margaret Bishop of Los Angeles is expected to spend next week with Mrs. C. O. Artz.

Mr. and Mrs. John Holt participated in the Canton May party in Santa Ana Monday night and very successfully portrayed the characteristics of father and mother in the Mother Goose story.

Mrs. Ann Schwartz is visiting Mrs. Wade Davis in Los Angeles.

LOS ANGELES PRODUCE MARKET

The first figs of the season reached the market yesterday. Two small boxes containing about thirty-five each were received, and one was disposed of for \$10. The fruit came from Indio, Coachella Valley. One of the local hotels made the purchase.

The first crop of strawberries is now being cleared up and the price was advanced from 5 to 7 cents a basket by wholesale fruit merchants. A large new crop is maturing and will soon be available. A quantity of fine raspberries is received; the price continues about the same as heretofore rather less than usual for this time of the year. The trade in cherries was good, with prices well maintained. Logans are meeting a good demand, and continue firm, on account of the damage to a portion of the crop by recent winds in Orange county. The off-grade fruit which came on the market immediately after the winds, has been taken care of, and most of the present supply is high grade. A few more apricots are received every day, and the season will soon be in full swing.

Peppers were easier at 20 to 25 cents a pound. New potatoes evince a soft tone. Oregon spuds are stronger. Cabbage has declined to as low as 60, and even 50 cents, in some instances. The market is becoming rather oversupplied with asparagus. There is a fair supply of summer squash.

NOTICE FOR BIDS

Sealed bids will be received by the Board of Supervisors of Orange County up to 11 o'clock, a. m. of Monday, May 18, 1914, and then publicly opened, for making the delinquent tax list of Orange County.

Holders to give price for printing each division. The work to be done as required by the Political Code.

All copy to be read in the office of the Tax Collector of Orange County. A certified check in the sum of \$50.00 and accompanying bid. The Board reserves the right to reject any or all bids submitted.

W. B. WILLIAMS, County Clerk.

NOTICE TO VOTERS

The Great Register of Orange County for the year 1914, as well as every other county in the State of California, is now being compiled. All voters who expect to participate in the general election to be held in November, 1914, and in the primary election to be held in August, 1914, must register. Registration closes for the primary election on July 25, 1914, and for the general state election on October 8, 1914.

W. B. WILLIAMS, County Clerk.

SANTA ANA, CALIFORNIA, FRIDAY EVENING, MAY 8, 1914.

GOOD FRIEND OF FISHERS IS DYING

Hundreds of Barracuda Hawks
Dying Along County
Coast

BIRDS HELP REEL MEN LOCATE FISH

Other Facts Not Generally
Known About Sagacious
Sea Fowl

The greatest friends of the rod and reel fishermen are dying by the hundreds along the Orange county coast. These friends of the fishermen are known to the fraternity as barracuda hawks. The birds are held in high regard among the anglers owing to the fact that they are the best indicators of the whereabouts of game fish. A boatload of rod and reel experts would have but indifferent luck indeed were it not for the unconscious aid tendered by the hawks.

Barracuda hawks have a habit of flying along the water at a great rate of speed. Every now and then the birds dive into the water after the smaller fish, minnows and sardines, which are driven close to the surface of the water by the larger game fish. The hawks fly along at a height of not more than two or three feet above the water.

Fishermen, when they see a flock of the hawks "at work," diving after the little fish, know immediately that large fish are to be had in that vicinity. It can readily be seen how valuable an adjunct to fishing barracuda hawks are. And it can also be seen that it is with the greatest regret that fishermen learn of the rapidity with which the birds are dying this season.

The cause of death among the hawks is not known. Many fishermen think that the birds are starving. Others are of the opinion that there is an epidemic of some kind at work among the hawks.

One of the most peculiar things in connection with the whole matter is this: two years ago, when there was a like dying-off among the birds, the fishermen had the greatest fishing season recorded in ten years. Why it should be that when the barracuda hawks die the fishing should be so immensely improved is a source of great speculation among the rod and reel men.

As evidence that the fish are not dying of sickness but are dying, rather, as a result of starvation, Victor Walker, the local angling expert, says that two years ago it was a common thing to see fishermen sitting in the sterns of their boats, whittling off chunks of meat from big fish.

"The hawks were hungry, there's no doubt of it," said Walker yesterday. "They were so wild for something to eat that they couldn't wait until the pieces had been cut. They flew right up alongside and ate out of the fishermen's hands."

Walker is a great student of the habits of fish as well as birds. He has no explanation to offer as regards the reason why the hawks should be dying off, unless it is that there is an epidemic of some kind at work among the hawks.

The hawks have formed the basis for some of the most interesting observations that Walker, and indeed all deep sea rod and reel men, have been able to do.

"There are about three different kinds of the barracuda hawks," said Walker. "One of the varieties, a small, bluish-colored bird, is nothing but a 'four-flusher.' These blue birds will hover around about a particular spot, 'working' the fish, and kicking up the biggest kind of a rumpus. But on going to the spot the fishermen invariably find that the birds have only been bluffing—they haven't located any fish."

"But it's different with the barracuda hawks," Walker went on, "whenever they get busy diving after fish, you can depend on it that they are not fooling. Their method of working is something like this: The birds, thousands of them, will ride on the water, all perfectly motionless. All of a sudden a scout bird, about a quarter of a mile distant, will let out two or three squawks and in an instant the entire flock of birds will be on the wing, flying toward the spot where the scout bird has made his discovery of the small fish. Then will follow a great feast for the hawks. Then is the time for the rod and reel man to steer his boat to the spot and get busy hauling in the yellowtail, barracuda and other big game fish."

Another peculiarity of the hawks noted by Walker is that sometimes the cases are reversed, in that the

QUEER MIXTURE OF MEN ON THE PIRATES.

A bizarre collection of occupations is found to take up the off season time of the Pirates, according to a list just made up. Gibson, Cooper, Harmon and Duffy are the farmers on the team. Manager Clarke also can be ranked as a farmer. Joe Conzelman, Ollie McArthur and Joe Leonard are students. There are three salesmen, two plumbers and five clerks. Hyatt is so used to butchering stock that he butchers the horsehide ball on the diamond. Bob Coleman is a stage mechanic and George McQuillan an electrician. Kantelner is a stenographer.

hawks wait for the fishermen to discover the fish. The sagacity of the hawks is remarkable. They seem to know instinctively that a boat is a good indication that fish are to be found near by.

SMOKER IS DUE WEDNESDAY EVENING

Surprises Promised at Athletic
Club When Wrestling and
Boxing Bouts Are Staged

On next Wednesday evening, May 13, the Athletic Club will hold its regular monthly smoker. The program will consist of both wrestling and boxing with some extra good cards together with a surprise or two.

For reasons best known to Mr. Garland the long looked for go between him and Henley Ellis has been called off. This turn of affairs took place only after the club management and the friends of both boys used every means to bring the two together, thus giving Garland the privilege of naming his own terms.

Garland declares it his positive intention to retire from the active boxing game while his reputation is yet good, so that it is not likely that he will be seen in action again. Frank Ocampo who expected a return match with the erstwhile Garland will therefore have to look in other fields for men to conquer.

The program for the evening will consist of both local and out of town talent and some real surprises are in store for the anxious fans. In the curtain rise Spain and Clark will come together in a short friendly match which will be followed by a go between Osterman and Houghton, both local boys.

Otis Taylor of Huntington Beach will box Dutch Heinrichs of Anaheim at 150 pounds, while Kid Reed of Brea will box a popular Los Angeles man, Sam Weber, Spud Morrison, and Peckie Perkins, all local boys, will likely be in the game for a little excitement which in itself puts the stamp of quality on the affair. Aside from the above there will be several other numbers, the names of the men to be given later. Both White and Crooks will in all probability appear in a good match.

Indoor Ball
In a fast but exciting game of indoor baseball played Wednesday evening in the club gym between picked teams from the Post Office and the A. C., the A. C. won 5 to 3. The game was scoreless until the fifth inning when the A. C. began the fight by crowding a man across the plate. They kept this up until the third man had reached home. In the eighth inning the P. O. force by clever work led the score only to have the A. C. bunch run over two more in the ninth, thus clinching the game.

In a short and speedy game Thursday evening between the Bankers and the All Stars the latter won 7 to 2, after some fast and brilliant playing. The Bankers laid their defeat to the poor judgment of the umpire, and therefore challenge the All Stars to another game and for safety expect to bring their own umpire along. From the amount of money they have behind them it is not certain that the new official can act otherwise than favorably to his friends.

Indoor seems to be a rather popular game just now and it is likely that more games will be played in the near future.

"It's a real live sport," say the players.

**SOLD TWO SAXONS
AND ONE CHALMERS**
The firm of Waffle & West reports that business is in a flourishing condition. During the last week the firm sold a Saxon car each to Leon A. Dickey and A. J. Boulanger. Today a Chalmers light "Six" was sold to H. Winters of Wintersburg.

MOTORCYCLISTS FIRST COUNTY ALTER PLANS IN RAIN GRAMMAR MEET

Fifteen Riders Started to Smith
Mountain But "Fog"
Interfered
Track and Field Events to
Be Run Off Here
Saturday

TRIED SAN DIEGO BOULEVARDS INSTEAD

Party Covered Over 200 Miles
in the Fourteen
Hours

The Smith mountain run came off almost. With perfectly good intentions, fifteen riders on as many machines gathered at A. F. Herold's Indian shop to try for the high places in the hills. Everything seemed favorable. The start was made on time and the weather looked fair. But by the time the last man went through Tucson, every one was more or less moist. The high fog was settling and by the time Oceanside was reached every one was wet. One machine was compelled to drop out at Serra, below Capistrano. At Oceanside a reckless driver ran over Lee Buck's two-speed Excelsior. More delay, until our refractory driver was made to settle for the damages.

Meantime the fog continued and a change in plans was made. Instead of trying for the hills, with their "dobe" surface, it was decided to try the new boulevard to San Diego. At Encinitas, the boys had coffee and bread and butter, and to them it tasted better than beefsteaks. Below del Mar, Bryan took a header in the "dobe" and Swann did likewise to avoid running Bryan down. No serious damage. At the top of Torrey Pines grade Herold discarded his rear mud guard, which had broken loose. From there in everything went smoothly. After lunch at San Diego every one headed back. The run back was made in about five hours, which is pretty good traveling for a party of fifteen machines. At Cardiff, Warner tried to leap the gap. Result—a slide and tumble down into a ditch. He also came out O. K. At 8 p. m. every one was back in Santa Ana, tired but satisfied and all willing to go on another jaunt.

The trip covered about fourteen hours and over two hundred miles. Decoration Day will probably see another such trip.

Those who went on Sunday's jaunt were Dexter Martin, Floyd Bush, Myron Warner, Joe Beach, Sam Preble, Armin Herold, Harry Osborne, John Swanner, George Ketscher, all riding Excelsiors, and John Bryan on a Harley-Davidson.

POLY PLAYS OCCIDENTAL TOMORROW

Second Game of Champ Series
With Orange Here
Tuesday

Ratliffe's men go to Los Angeles tomorrow to play a practice game with Occidental. Shallenberger will pitch for the Polytechnic. Duhart may be put in late in the game.

The second game of the series of three for the Orange county championship will be played on the Polytechnic diamond Tuesday, May 12, with Orange High School. Ratcliffe has not yet made up his mind as to who will pitch this game. As far as the line-up is concerned nothing very definite has been announced. The game Tuesday afternoon on promises to be one of the most hotly contested ever staged on the local diamond. The game will be called at 3:30. It is expected that a large crowd will be in attendance. Orange will undoubtedly send over a large delegation to help root for the home team and Santa Ana will not be backward in helping to fill the bleachers.

In tomorrow's game at Occidental Brown will receive the flings of Shallenberger. Carver will be on third, Cannon on second and Corliss on first. Snow will shortstop for the locals, while "Big Spud" Morrison will hold down the situation in the center garden. Walter Elliott will be in the left field and Joe Irvine in right.

—Rebuilt typewriters? Ben Turner.

Melba Cream Kisses 20c per pound next Saturday. Candy Special at Taylor, 216 W. Fourth street.

ATHLETES MAY ENTER ONLY 3 TRACK EVENTS

All Entries Must Be in by
Tonight—Good Line
of Prizes

Entries have been coming in the past week for the first Orange County Grammar School Meet and indications are that those who originated the idea of the meet will be fully satisfied.

The meet will start promptly at 2 o'clock at the Polytechnic Athletic Park. The general admission will be fifteen cents. Each athlete will be limited to entrance in three track events and three field events besides being a member of the school relay team. Each school will be entitled to enter only one relay team.

The order of events will be: Track events, 60-yard high hurdles, 50-yard dash, 330-yard run, 100-yard dash, 880-yard run, 220-yard dash, 110-yard low hurdles, 440-yard dash, half-mile relay (each contestant running 220 yards), and the quarter-mile relay (each contestant running 110 yards).

The field events, high jump, shot put, broad jump and pole vault, will be run off in the order named during the intervals between the track events.

All entries should be in by tonight, accompanied by the entrance of fifteen cents for each contestant. Address all communications to Paul Anderson, the manager of track, Santa Ana High School, and make all checks or money orders payable to Ralph Jayne, treasurer of the student body.

Carl G. Strock, the local jeweler, is offering a beautiful silver cup, which will become the permanent property of the school winning the largest number of points and bronze medals will be presented to those winning first places, with ribbons for second and thirds. Points will be counted five for first place, three for second and one for third, with five points added to the total of the school that wins either relay.

The meet is the first of the kind ever attempted in the county and the schools all over the county as well as city are responding to the invitations recently sent out. The meet will be the biggest event of the year for the grammar schools and will be well worth seeing.

REO ROADSTERS ARE IN LARGE DEMAND FOR COMMERCIAL PURPOSES

"The demand for cars by large corporations for the use of their traveling salesmen is steadily increasing," said R. C. Renschaw of the Reo Motor Car Company of Lansing, Michigan. "Only a short time ago the American Radiator Company bought a quantity of Reo the Fifth Roadsters for the use of their traveling salesmen, and an order has just been received from the U. S. Gypsum Company for the same type of cars for the use of their salesmen; several grain elevator and milling companies in the western states have been heavy purchasers."

In those territories salesmen are able to cover the ground more rapidly and more economically by means of the automobile. For example, on a recent trip to Sioux City I met a traveling salesman of my acquaintance whose chief complaint had always been that the hardest part of his job was idling Sundays in small towns where he was not acquainted, but he solved this disagreeable feature by purchasing a Reo Roadster, in which he now makes all of his weekly trips in four days, which enables him to spend his week ends at home. Another salesman of my acquaintance, who is now covering his territory in Minnesota in a Reo, said that when he made the rounds by means of train and trolley it always left him his Sunday in a strange town and Sunday seemed twice as long as any other day in the week, but now with his motor car he can always find a companion to put in the day on a fishing trip or visiting nearby points of interest."

CAMPBELL IS TO COACH STANFORD

PALO ALTO, May 8.—Current rumors on the Stanford campus that "Dad" Moulton would return to the university next year to coach the 1915 varsity track team were ended by the appointment of Errol P. Campbell, former track captain, as coach for next year.

Campbell coached this year's intercollegiate meet won by Stanford April 18. Campbell graduates this month and will be ineligible next year. He will go with the Stanford team to the western conference meet in Chicago June 6.

Polo Practice Taking On Championship Form

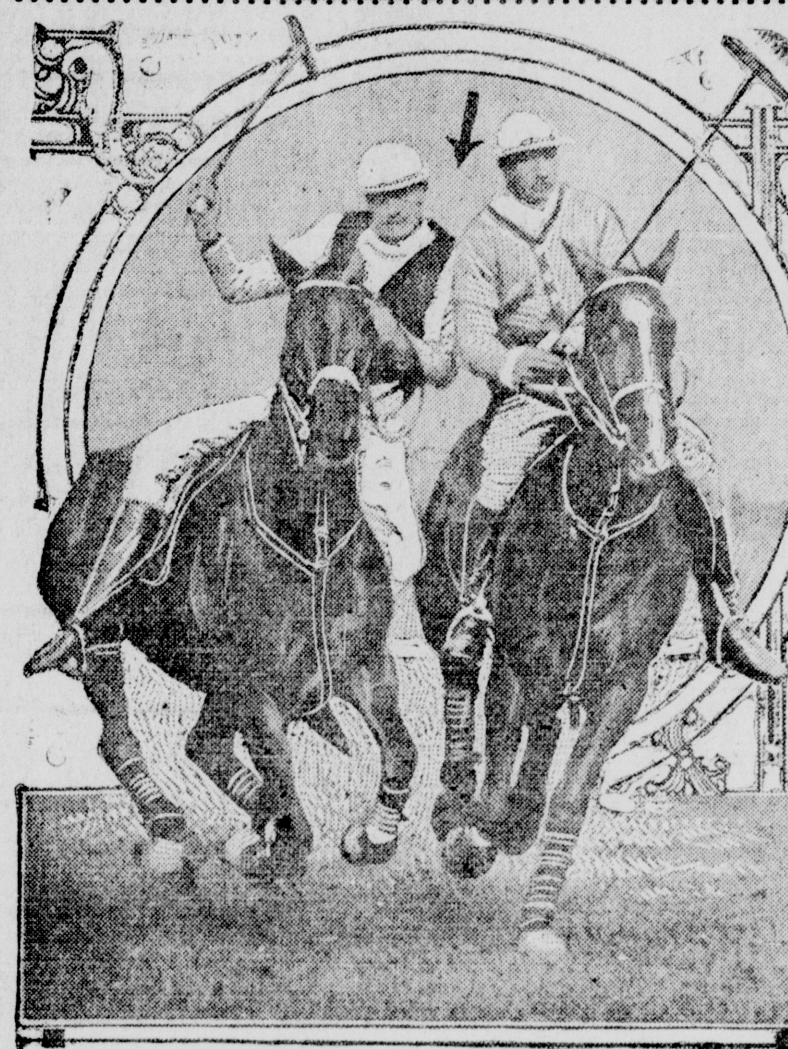

Photo by American Press Association.

RUMSEY BODY CHECKING H. S. PHIPPS.

POLO team candidates at Lakewood are rounding into championship form, and the coaches are practically decided on the "big four" lineup. The two Waterbury brothers, Milburn and Hal Phipps will probably be the final choice. The picture shows a body check. Rumsey has ridden up behind Hal Phipps and is blocking him so that he cannot swing his mallet.

50-MILE AUTO RACE HERE MAY 30 PART OF SPEED CARNIVAL

A 50-mile free-for-all automobile race, a 15-mile light car race, a 15-mile twin-cylinder stock motorcycle race, a 10-mile single cylinder stock motorcycle race and a 5-mile relay bicycle race, made up of teams of five, for newspaper carriers, of the county, will be the main events of a speed carnival program which is being arranged to take place on the Santa Ana race track on Memorial day, May 30.

Negotiations to stage these races have been under way for some time but it was not until late yesterday afternoon that it was announced that the races would be a certainty. The speed events, which are under the management of Ellis Smith, the Hupmobile agent, promise to be among the best ever arranged for in this city.

One feature of the races will be that all entrants in any of the events must be residents of Orange county. This will give all contestants an even chance.

Prizes aggregating \$175 have already been subscribed. All prizes are to be strictly cash and this should be another big inducement for the speed talent of the county to enter. In addition to the following prizes for the different events it is more than likely that additional purses will be put up before the races are called on the afternoon of May 30.

First prize for free-for-all, \$75. Second prize, \$15. First prize for light car event, \$15. First prize for 15-mile twin-cylinder motorcycle race, \$15. First prize for 10-mile single cylinder motorcycle race, \$10. First prize for relay bicycle race, for newspaper carriers of county, \$25.

Entries for the Memorial day races will close Saturday, May 23. The present owners of the Santa Ana race track have announced that should this racing event prove the success that it is expected to be the track and buildings will be put in such shape that races may be held

GRUNYON ARE DUE BEGINNING OF WEEK

According to word received by telephone at the sporting goods headquarters of Hill and Walker the grunyon are expected to run on Monday and Tuesday nights of this coming week at Serra. Fishing parties to San Juan have been numerous this spring and they have all been able to make large catches of the little fish. It is expected that the first two days of next week will bring out a large number of fishermen.

TO LEAVE SUNDAY ON TRIP TO SESPE

A trout fishing party consisting of S. E. Dabson, Joe Parsons, Dr. M. A. Patton, John Tubbs and Henry Ruth, are expected to leave at four o'clock Sunday morning for Lathrop's camp on the Sespe River in Ventura county. The party will go by automobile from here to Nordhoff. From that place the remaining fifteen miles to Lathrop's camp will be made on horseback. The anglers expect to be gone about a week.

SCHEDULE OF GAMES IN LEAGUE

Foresters of Angel City Meet
Deck's Moose Nine Here
Sunday

TROLLEY LEAGUE HAS SOME FAST TEAMS

Local Aggregation is Showing
Some Real Ball-Playing
Class

Schedule of three games to be played by Moose Club:
Sunday, May 10, at Moose Park, Foresters, of Los Angeles.

Sunday, May 17, Redondo, at Redondo.

Sunday, May 24, Silverwoods, at Moose Park.

These are all a part of the games of the Trolley League series. The teams comprising the Trolley League are all made up of first-class ball players, as was evidenced last Sunday when the Moose team went up against the Los Angeles Railway club. Even though the locals lost the game all the fans were well satisfied with the variety of ball exhibited. The true ball bug doesn't care so much which team wins so long as real ball is on tap.

Last Sunday Midge Brown struck out 15 of the car men and Grimes struck out 14. That's quite some evidence of a fast game. Of course, there were errors made, but in spite of them every man who saw the game got his money's worth.

There are some players on Deck's team who are playing better ball than they ever did before. Take the battery for instance. Brown and McGaffey are a combination that is hard to beat. McGaffey receives the flinging of the Midge in a manner that compares favorably with the work of any catcher who ever worked in a Santa Ana ball garden.

Luxembourger's way of doing the honors on first has made the fans sit up and take notice. "Lep" hasn't let anything go by him so far this season. His mind is on the game during every minute of play. Several times during games played so far Luxembourger has nailed wild pigs to first in ways that proved surprising. Deck's first baseman is there with the confidence this season—confidence backed by knowledge of power to make good.

In putting Shultz on last third Sunday Manager Deck showed that his judgment is A-1. Shultz demonstrated that he was entirely capable of covering as much, if not more, ground than any man on the team. He was responsible for the Los Angeles batter last Sunday through his quick action in spearing fouls that came near his territory on the third sack. He made a good try to get a third batter by catching a foul but a slight miscalculation caused him to miss it.

Most of the others on Deck's team are handling themselves in good fashion. In batting particularly there is no doubt but that the boys have the ability to connect. Batting against Grimes in last Sunday's game was no easy matter. The Los Angeles batter had a lot of English on his assortment but the locals reached him nevertheless.

In next Sunday's game the lineup for the Moose will be as follows: Brown, p; McGaffey, c; Luxembourger, 1b; Walters, 2b; Carver, 3b; Duhart, ss; Dubois, rf; West, lf; Freeman, cf; Shultz, substitute.

BATTING AVERAGES ARE FIGURED OUT

Huntington Beach News: Coach F. L. Trover has figured out the batting averages of the players composing the high school baseball team, and while Clarence McClintock, the new first sacker is first on the list with the fat average of .500, he has only been up eight times and Nutt and Helme have faced the pitcher 30 and 38 times respectively, and are therefore the real leaders. The averages follow:

	AB.	H.	PC
MacClintock, 1b	8	4	.500
Nutt, p-rf	30	15	.500
Freeman, sub. f	3	1	.333
Walters, 2b	36	11	.305
Brooks, p-rf	28	8	.285
Worthing, 3b	33	8	.242
Leebrick, 2b	34	7	.205
Isonor, 3b	21	3	.142
Pann, f	15	2	.133
Heartwell, 3b	12	1	.083
Harris, c	4	0	.000
Helme, c	38	12	.315

OVERLAND NOTES
Thirty carloads of Overlands, comprising thirty machines, were shipped to Philadelphia last week as a special order to meet an increased demand.

An Overland touring car was awarded the prize for the best car costing \$1500 or less at the California State Fair.

EDDIE PULLEN SHOWS A LOT OF SPEED

His New Mercer Racer Develops
One Hundred and Nine
Miles Per Hour

MOTOR SHOWED OVER
100 HORSE-POWER

Bragg and Wishart the Other
Two Mercer Drivers at
Indianapolis

One hundred and nine miles per hour on its first trial was the speed displayed by the new Mercer racers which will appear at Indianapolis, according to a wire received last week by George Bentel, says the Los Angeles Times.

This is the car that has been built for Eddie Pullen, the winner of the Grand Prize. It weighs only 2000 pounds and has a motor that has developed over 100 horse power. The Mercer people expect great things from this car. It has been built especially for racing and incorporates a

number of new ideas. The Mercer people use their racing teams for testing and experimental purposes. A thing is first tried out for a season on the racing cars, and if it shows no weaknesses it is then incorporated into the stock models. The raceabout models of today are the racing models of last season.

Pullen's team-mates at the 500-mile race will be Caley Bragg, the millionaire sportsman, and Spencer Wishart. These pilots will drive the two Mercers which were raced at Santa Monica in the Vanderbilt and Grand Prize races.

Charles Mackey of the Los Angeles firm will leave May 23 for the race. He will see the races and will go from Indianapolis to the Simplex and Mercer factories, where he will spend over a week in conference with the officials and inspecting the workings of the plants.

The racing crew is to be sent west in its entirety. The three cars will first race at Tacoma, and then Seattle and Pomona.

RECENT DELIVERIES OF STUDEBAKER CARS

Recent deliveries of Studebaker cars sold by the Wm. F. Lutz Company are as follows: Richard Egan of San Juan, Capistrano, Studebaker "Four," E. B. Smith, Studebaker "Six," Mrs. Geo. Pickering, a Studebaker "Four," and H. H. Dale, a "Four."

FISHERMEN ARE HAVING TROUBLE WITH SHARKS

Fishermen along the Orange county coast report that all sharks are causing a great deal of trouble among the nets. The sharks get into the nets and their struggles to release themselves result in much damage.

SUPERB FRIEZE FOR WONDERFUL EXHIBIT PALACE, PANAMA-PACIFIC INTERNATIONAL EXPOSITION, 1915.

THE world will enjoy at San Francisco in 1915 the most marvelous collection of sculpture ever presented at a universal exposition. The photograph above shows an exquisite bas-relief representing the development of the industry, to be placed over the entrance of the colossal Palace of Varied Industries. The figures are of huge size. The work is by Ralph Stackpole, the brilliant American sculptor, and represents one of his finest creations.

GOOD TOURNAMENTS SCHEDULED HIGH SCHOOL TENNIS PLAYERS SHOW MUCH INTEREST IN GAME

A great deal of interest has been shown in tennis this year at the Polytechnic High School. As evidence of the enthusiasm shown it need only be said that, in the annual boys' tournament now in progress at the school there are 44 entries. Besides this event there are a number of others scheduled for the near future.

A match has been arranged with Anaheim High School for May 9. This tournament will be played on the home courts.

On May 16, on the Y. M. C. A. courts in Los Angeles, Melton Hatch, E. Jayne, Isabelle Anderson and Ardis Burns will represent the local school in the Southern California Tennis Tournament. Hatch and Jayne will enter in the boys' singles and doubles and the Misses Anderson and Burns will enter the girls' singles and doubles. These four players will also represent Santa Ana on May 30 when the Orange County Tournament will be held at Orange.

A tournament has been arranged between the Polytechnic high schools of Los Angeles and Santa Ana. Play will be on the local courts on May 23. E. Burns and L. Warner will enter the second doubles in this meet. Ruth Harding and Orville Ball will compete in the girls' third and fourth

singles and second girls' doubles. M. Hatch and Isabelle Anderson will play in the first mixed doubles and R. Jayne and Ardis Burns will compete in the second mixed doubles.

The boys of the Polytechnic tennis players will meet with those of the Harvard Military Academy on June 14 at Los Angeles. On or about the same date the local girls will meet those of Marlborough school. Arrangements for this tournament are now being made.

Of the 44 boys entered in the boys' tournament which is now in progress there are about fifteen whose work stands out above the rest. Melton Hatch, who is, of course, expected to be returned the winner of the tournament, is well in the lead at the present time, while the following players are doing a great deal toward crowding him for first place honors: F. Biggs, L. Warner, Fred Forgy, John Wehrley, B. Smith, K. Davis, J. Livezey, H. Gale, B. Wallace, Martin Biggs, E. Burns, H. Dameron, Ralph Jayne and Benny Osterman.

The annual girls' tournament is also in progress. Among the ladies Isabelle Anderson is expected to win the tournament, while the Misses Burns, Ball and Harding are crowding her for first place.

BOSCH COMPANY IS OFFERING SPECIALS AT INDIANAPOLIS

The Bosch Magneto Company, in keeping with the usual custom of awarding a series of prizes to the successful drivers in the important race meets of the country, is to offer \$1200 in special prizes for the drivers in the great 500-mile race at Indianapolis, Memorial day, says the Los Angeles Times.

To the winning driver in the speedway event, provided his car is equipped with a Bosch magneto, will be awarded \$500. The second car is to receive \$300, and the third is to receive \$200.

For cars using Bosch plugs in addition to the Bosch magnetos, the drivers of the first three cars to cross the line are to receive the sum of \$100 each.

The division of the prize money is made with the idea of adding interest to the sport. The Bosch company is said to be interested in the 100-mile race as a sporting event, and the man who is a near winner is awarded a prize of relative value for his success in the contest.

The one condition is that the winner of first, second or third place in the race, to be entitled to the prize, must have his car equipped with Bosch magneto and Bosch plugs.

REPORT OF COUNTY GAME WARDEN FOR APRIL IS ON FILE

The April report of County Game Warden W. K. Robinson to the Board of Supervisors, follows:

Santa Ana, Cal., May 1st, 1914. To the Honorable Board of Supervisors of Orange County, Cal.

Gentlemen: The following is my report as game warden of the county of Orange for the month of April, 1914.

April 1.—In company with Deputy Forster patrolled Mission Creek to and above the Hot Springs. Found all fishermen with proper fishing licenses, but with few fish.

April 2.—Returned to Santa Ana via Santa Fe railway, thence to Trabuco canyon via San Joaquin ranch roads, Aliso, Live Oak and Trabuco canyons.

April 3.—Patrolled Live Oak, Aliso and Santiago canyons, and posted game refuge warnings. Met no fishermen.

April 4.—Patrolled Silverado canyon and posted warning notices. Met a few fishermen with but few fish. All had licenses.

April 5.—Patrolled Trabuco and Holy Jim canyons. Found a few fishing parties in the canyons all with licenses.

April 6.—Patrolled Santiago canyon to Morrow's mines, found nobody in the canyon.

April 7.—Patrolled Live Oak and Aliso canyons and the San Joaquin ranch roads to Santa Ana.

April 8.—Got horse chod, and returned to Trabuco via San Joaquin ranch roads, Aliso and Live Oak canyons.

April 9.—Patrolled Trabuco and Holy Jim canyons. Found a party of boys fishing in the canyon, all under 18. One had a fishing license, however.

April 10.—Patrolled Belle canyon. No one in the canyon.

April 11.—Patrolled Gobernadora and Hot Springs canyons, as far as the Hot Springs and Dr. Morris' ranch. Found no one fishing in the canyons. Saw a number of quail en route. Quail are beginning to pair off.

April 12.—Patrolled Trabuco and Holy Jim canyons. Found several picnic and fishing parties in the canyons. The fishermen all had licenses but few fish.

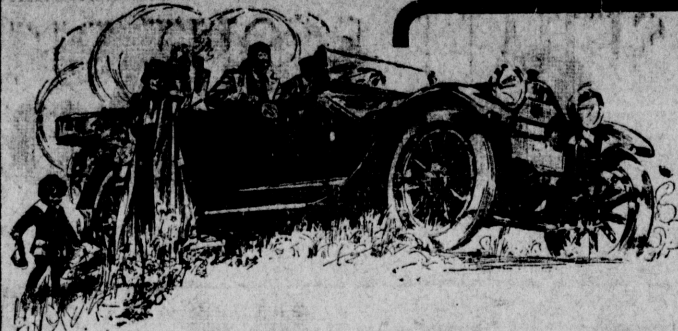

April 13.—Patrolled Belle canyon and Trabuco mesa.

April 14.—Patrolled Live Oak and Aliso canyons and San Joaquin ranch roads to Santa Ana.

April 15.—Went to Los Angeles via P. E. railway for consultation with the Fish and Game Commission.

April 16.—Patrolled the country east of Orange and around the County Park and returned to Santa Ana via Peters canyon and the San Joaquin ranch roads.

April 17.—Patrolled the county west of the Santa Ana river, the gun clubs of Huntington Beach and returned to Santa Ana, saw neither hunters or

Chalmers 1914

A Brief Story About Two "Sixes"

The Master "Six" \$2325

That Restful Glide of the Chalmers Six is due to its wonderful motor. Ever since "one lugger" days the cry has been for more cylinders to eliminate that jerked-along feeling. But this was impossible till the advent of the perfect "six"—in which power impulses not only meet but actually overlap. Such a motor is the Chalmers. It yields an absolutely continuous power stream, which imparts a gliding, yacht-like motion to the car that resists all attempts at explanation.

The Master "Light Six" \$1950

The Right Price for a Light Six. Don't pay too little for your car. Safety, efficiency and durability depend fully as much upon good materials and good design in a light as in a standard-sized car. The Chalmers 1915 Light Six at \$1950, f. o. b. Santa Ana, is priced, not to catch the eye for bargains, but to yield the greatest number of years of economy and motoring satisfaction skilled designers can produce in a car of this class. Before considering any car, by all means phone for a demonstration of the new Chalmers Light Six.

Guarantee Garage, Corner Second and Bush

April 18.—Returned to Trabuco via San Joaquin ranch roads, Aliso and Live Oak canyons.

April 19.—Patrolled Trabuco and Holy Jim canyons.

April 20.—Patrolled Trabuco, Oso, Aliso and Live Oak canyons.

April 21.—Showery day; patrolled Belle canyon.

April 22.—Rainy day. Stayed at home.

April 23.—Patrolled Gobernadora and Hot Springs canyons to Capistrano. In the afternoon accompanied Deputy Frank Forster to San Onofre to see some commercial fishermen about licenses.

April 24.—Went to Laguna Beach via the coast route, saw rabbits, quail and dove on the way. The quail were all paired. Saw no one fishing.

April 25.—Patrolled Laguna Beach, Laguna, Toro, Aliso and Live Oak canyons. The fishermen at Laguna Beach all had licenses except those who were fishing from the pier.

April 26.—Patrolled Trabuco and Holy Jim canyons. Found several auto parties in the canyons but no one fishing.

April 27.—Patrolled Belle canyons.

April 28.—Rainy day. Stayed home.

April 29.—Patrolled Aliso, Live Oak canyons, and the San Joaquin ranch roads to Santa Ana.

April 29.—Patrolled Gobernadora canyon and Trabuco mesa.

Respectfully submitted,
W. K. ROBINSON,
Game Warden.

Fourth and Spurgeon.

BASEBALL SCOUT BIG FACTOR FOR SUCCESS

NEW YORK, April 29.—Did you ever stop to consider what an important part the scout plays in baseball? Though a most valuable asset to a big league club, little is known of him by every-day fans. A club may win a dozen pennants, but the scout passes almost unnoticed, whereas he deserves almost as much commendation as the men who play the game on the field. The scout is as much in the game as the star pitcher—only he is playing it from a different angle. Scouting is a peculiar business and a little game in itself, and is more of a necessity to owners in organized baseball now than the Federal League is in the field.

The baseball scout of today has a role to play unlike that of others in baseball's drama. Conditions growing from year to year have created his job, and just how important it has become is borne out by the fact that all major leagues, as well as the little fellows, have now established scouting departments. In short, this is baseball's detective agency—the department which is ever on the lookout for available players to fill places of waning stars.

There is only one excuse for the scout—the scarcity of fast men. In these days of bitter competition there is but one way to get the budding players of promise, and that is by going out and digging them up. Club owners nowadays don't dispose of the men that help swell the gate receipts. Magnates can't purchase dividend-paying stars like Matty and Cobb, for baseball has grown to be a legitimate business. The burden of obtaining high-class recruits accordingly falls on the shoulders of the scout, who must go out and dig them up in the so-called bushes. And this is getting to be a most difficult proposition as the years roll on. Scouting has its many disadvantages, just like any other business.

Value of Good Scout
When one takes into consideration that more than a third of a million dollars is spent yearly by big league clubs in the search for material to build up winning teams, the value of a good scout to a club is shown. The expenditure of this sum is merely speculation at that, and the chances of financial reimbursement are small, for but a small percentage of the players gathered in the net are ready for immediate use. The great majority fall to come up to big league requirements and have to be turned back or traded. However, if a club is lucky enough to unearth a star, an owner feels that he has spent his money well and overlooks the loss that the others have caused him. In these days a scout feels that he has well repaid his employer if he is able only to produce but one real star.

Twenty years ago the scout was unknown. Owners were often tipped off to players—some by men working in the "bushes," and often by fans—but as time went on this system grew to be a rather expensive one, for seldom was the right man found for the right place. Adrian C. Anson, they say, was the first to actually adopt a scouting department, and after he tried it with the Chicago White Stockings, others "got wise" and followed his idea. Now they all have them. An owner without a scout would have a very little chance of building up a winning team; if he hasn't one, and as little chance of maintaining a winning team if he is so blessed. And that is one reason why a good scout of today

is worth the salary of a star all-around player. If he is a good man and knows a ball player when he sees one, he can help make a club; if he is a poor judge of talent he can run a team into a rut quicker than any one else.

The real scout today holds a regular job with a major league club, and his association with a team is to find available material. Managers in small towns often tip certain clubs off to promising players, as do umpires in obscure leagues, but seldom is a player signed upon the say-so of these tipsters. The scout looks them over first before any negotiations are entered into, for rarely are the tipsters acquainted with the requirements of the big league. The sources of getting information about players are many, and rarely does a day pass when a manager doesn't hear of a Wagner or a Cobb hidden in some obscure town. If all the players tipped off to the big league made good there would be no need of scouts.

As in all business, there is a system in scouting. They must arrange plans and follow them out, and when it comes to work, a scout's duties are never ended. Just as soon as the minor leagues' seasons begin he has to pack his trunk and be off, and as a rule he is kept on the jump for most of the year. Nowadays the scouts pick out certain leagues and go through them, watching every player in action. After they get through with them they comb the smaller towns. No place is too small to inspect, for in some of the remotest places good men are discovered. The entire country is their territory.

Back in the old days a scout would go out into a minor league city and hunt up the most popular barber shop or some other rendezvous of the home fans. There he got time about the players. If any of the men had a good afternoon the first thing he would do would be to wire his employer, advising the purchase of the player. Owners were often advised to purchase a man on the strength of his work in a single game. But they don't do things that way any more. The value of a good scout does not always lie in what he brings to the club, but often in what he prevents a club from buying.

The trained scout of today will camp on the trail of a man with the earmarks of a major leaguer sometimes as long as a week before he comes to a decision. He watches him bat against all kinds of pitching; watches how he stands at the plate; how he throws the ball; in fact, he watches his every movement. His one idea is to see the player perform under all kinds of conditions. Then, if he is satisfied, off goes a wire to the scout's home office. Many times other clubs are on the trail of the same player. Then it is time for quick action. When several men are after the same player, as a rule the "prospect" goes to the highest bidder, and it is the scout's duty to ascertain just how high a price it would be wise to pay.

The men who are scouting today, as a rule, are former ball players. They are supposed to make the best sleuths. The wise one will see things that even the best schooled spectator will overlook.

Dubbed the "ivory hunters" of baseball the scout, however, deserves a lot of consideration, for his part in baseball is no easy one to play.—Los Angeles Times.

Sporting Briefs of the Week

[By Hal Sheridan]

NEW YORK, May 7.—If Mordecai Brown's St. Louis Reds should happen to cop the Federal League pennant, there would be another badly spilled bucket of dope to scoop up. Breezing through April the former Chicago Cub pitcher carried his club along to the top of the heap, being walloped for but one out of the first nine games. That is hardly more than out from under the light shadow of the wire, but should the team hold up and continue the fight through July and August, a new line of excuses for the Browns and Cardinals may be necessary. Should Brown deliver, it will also be the first pennant ever won by St. Louis.

Turning back the pages it will be found that Cincinnati, Philadelphia and St. Louis have yet to put over a winner in the National League. New York, Cleveland, Washington and St. Louis have never won a pennant in the American League. That puts it on St. Louis twice.

Philadelphia has won the pennant in the American League five times. Chicago, Boston and Detroit have each copied three. Chicago is the big winner in the National League, having grabbed off ten flags. Boston has eight to its credit, New York seven, Pittsburgh four, Brooklyn three, and in the old line up Baltimore three, Providence two and Detroit one.

It has always been more or less of a mystery why the St. Louis teams have usually been able to start the season in good shape and then die away. The Cardinals under Bresnahan rushed away one year as though they might chew up the entire universe. Then as the weeks wore on and the hot days arrived the Cards curled up, shriveled, cracked and split wide open as they slid down the column.

Explanations as long as the history of Babylon have been made of this annual trip down the chutes by St. Louis teams. The weather of St. Louis is held responsible by some dopsters. And some of the St. Louis players are said to have declared that as the thermometer climbs in their home town and the humidity humids, all pep slowly oozes away and there is nothing left but nine shells which perjure through the motions of ball playing, while the teams of northern cities are cavorting at top speed and slaughtering the ball to all corners of the lot.

If Brown has collected an aggregation of tropical wonders for his St. Louis Reds he may count on being among the leaders when the final bell rings if he has just ordinary human beings who do not do their training

on the equator, there will have to be a new line of dope figured for the Browns and Cardinals.

It has been pretty clearly indicated that the Giants have a man sized job on hand in beating out the Pittsburgh Pirates for the National League pennant.

In the first place, the Pirates have gotten into action from the start. Heretofore they have hesitated and stuttered before striking their real battle stride. The Giants were the slow starters this year and should Fred Clark's men hold their gait, it will be a long, hard chase to the finish this year which had been a bug-a-boo for years. That is at first base. By acquiring Koney from St. Louis Cardinals the Pirates solved their ancient problem for the Big Train stacks up with the best of them when it comes to first basing. Wagner is going as of old, fielding as only Wagner can field, and slaying the ball as only the famous Dutchman can slay it.

McGraw has introduced movies to show the Giants mistakes they make and improve the general playing of the team. But there is one picture that will not be shown. That is a "movie" of Frank Baker in action. McGraw wants to win a fourth pennant, but with a daily reminder of Baker and his bat there would be no need of expecting a driving finish. What's the use of winning a pennant and then face shots of Baker and other members of the Mack artillery in the World's Series?

Track sharps of the east are about ready to admit now that Howard Drew really did run 100 yards in California in 9 3-5. Under the colors of the University of Southern California, Drew ran one of his heats at the Pennsylvania relay carnival in ten flat. The track was heavy and a steady rain was falling. Drew was also far ahead of his field and eased up before the finish, crossing the line hands down. Under good conditions there is no telling how fast Drew might tear off a hundred. He may be expected to repeat his 9 3-5 before the season closes.

Keep Bowel Movement Regular
Dr. King's New Life Pills keep stomach, liver and kidneys in healthy condition. Rid the body of poisons and waste, improve your complexion by flushing the liver and kidneys. "I got more relief from one box of Dr. King's New Life Pills than any medicine I ever tried," says C. E. Hatfield, of Chicago, Ill. 25c at your druggist.—Advertisement.

REO THE FIFTH

\$1175 Equipped

F. O. B. Lansing

A Handsome Super-Car

The fame of Reo the Fifth, up to 1914, was due mainly to the chassis. It was the car of extremes, of costly construction. In fine engineering it stood for the best Mr. Olds could do.

But we reached the limit there. Last year we devoted to lines and finish, to beauty and equipment. Now the car excels in appearance as it does in the hidden parts. Inside and outside, this latest model marks the super-car.

Flowing Lines

We adopted the streamline body, now European vogue. The angle dash has disappeared for good. Note the artistic and unbroken lines.

We have given you new-style fenders, a built-in windshield, a flush-set instrument board. We give you rich, enduring finish, deep upholstery, a roomy tonneau. And we give you a driver's seat without a lever in the way.

We have adopted the best sys-

tem of electric lighting and starting. We give you dimming searchlights. You will see few cars at any price so impressive, so modernly equipped.

But Don't Forget

But don't let simple beauty sell you any car. In an honest car the value lies in parts you do not see.

Reo the Fifth is built to standards which most men call extreme. But time and tests have proved each one essential.

It has vast over-capacity, but there are times when you'll need it. All driving parts are strong enough for a 50-horsepower engine, but there are times when you'll be glad.

We spend six weeks on each car, but the result is exactness. You will find no weakness, no oversight, no flaw.

Our test cars are given 10,000 miles of rough driving, to prove what the parts can stand. But that insures you years of perfect service.

Get the Utmost

Men who have had troubles, upkeep and repairs will tell you it pays to get a well-built car. A car can't be too good. After a few months, a skinned car is bound to prove expensive. Many thousands of men who know this from experience are now buying Reo the Fifth.

The steel is made to formula and analyzed twice. The gears are tested in a 50-ton crushing machine—the springs for 100,000

vibrations. There are 15 roller bearings—130 drop forgings. There is a very costly clutch to make gear clashing impossible. There are big tires for economy. In every part we give you here the very best we know.

A Lower Price

This year we give you a lower price. All the special machinery for building this car has been charged against previous output. Now we wipe out that charge, and give you this year's savings on electric starter and tires.

Now Reo the Fifth, with electric starter and lights, costs \$220 less than last year. Yet we give you this year more than ever. Now no price reason need debar you from the best car in its class.

Reo sales this spring will, by thousands of cars, exceed any previous record. Men are coming more than ever to this class of car. They are buying cars to keep. They are looking for years of service.

DONLIN AS THE HERO.

Mike Stars in His Latest Sketch, "The Comeback."

Mike Donlin, erstwhile Thespian, is scoring an unprecedented success in his latest sketch, "The Comeback." Mike is now leading pinch hitter for

Photo by American Press Association.

MIKE DONLIN.

Muggsy McGraw's Giants, taking the place left vacant by Harry McCormick.

When last with the Giants Mike was a consistent 350 hitter and captained the championship team of 1905. He has visions of breaking into the society of swat again this year and promises to break up many a game with his big bludgeon.

Whitney May Play Polo.

Harry Payne Whitney, whose announced retirement from championship polo play broke up the famous "big four," who so successfully defended the cup against the Britons, may return to the game after all. Latest reports from Lakewood would indicate that Milburn, the two Waterburys and Stevenson will start the international match, but if they lose the first game Whitney will jump into the breach and take part in the remainder of the games.

GRAY HAIR BECOMES DARK, THICK, GLOSSY

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Hair Remedy." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.—Advertisement.

GRAND OPENING

IN MY NEW LOCATION

After many months of planning and hard work I am finally enabled to properly introduce myself to the great buying public of Santa Ana.

I have taken a long lease on the beautiful new store located at 209 West Fourth Street, and I now feel that I am properly equipped to handle the big business that I am going after. Simply for the purpose of introducing my new location, I offer for TOMORROW, ONE DAY ONLY, suits to order at a price that seems ridiculous when values are considered.

To make my new location opening the most sensational ever held, I offer goods that were formerly made up for \$40, \$45 and \$50, at the sensational price of \$20 only

I have taken a long lease on this fine new store. I am here to stay, and simply for the purpose of quickly acquainting the buying public with my new shop, I offer this remarkable tailoring proposition for

SATURDAY

May 9

My Former Prices Were

\$40, \$45 and \$50

GRAND OPENING Price

CHOICE OF ANYTHING IN WHOLE STOCK

I want to get acquainted with every man in Santa Ana. I want them to see the values that I can turn out.

With this end in view, I offer an absolutely unrestricted choice of any piece of goods in the house, made to your individual measure, for just \$20.

My regular price for making up these suitings is from \$40 to \$50. I produce only the best, and it is necessary to me to get this amount in order to give you the class of tailoring I always turn out.

Now, simply to start things off with a whirlwind of business in my new location, I have decided to take orders for tomorrow, one day only, at just \$20.

20

Suits to Order \$20 One Day Only

COMPETITORS CAN'T APPROACH MY LOW PRICES

There isn't a tailor in this town that can duplicate or even approach my offer of tomorrow.

I know woolsens. I handle the finest. My suitings are superb examples of expert weavers' work.

Price means nothing to me tomorrow. I want every man in Santa Ana to call at my new store and get acquainted.

I am now properly housed and am in a position to properly handle a tremendous business. Therefore I am going to get it if low prices are any inducement.

No extra charge for size tomorrow. Come on, you big fat men--you six-feet-tall boys. Come in and celebrate with me. Choice of anything in stock, made to order, just \$20

EDDIE PULLEN SHOWS A LOT OF SPEED

His New Mercer Racer Develops
One Hundred and Nine
Miles Per Hour

MOTOR SHOWED OVER
100 HORSE-POWER

Bragg and Wishart the Other
Two Mercer Drivers at
Indianapolis

One hundred and nine miles per hour on its first trial was the speed displayed by the new Mercer racers which will appear at Indianapolis, according to a wire received last week by George Bentel, says the Los Angeles Times.

This is the car that has been built for Eddie Pullen, the winner of the Grand Prize. It weighs only 2000 pounds and has a motor that has developed over 100 horse power. The Mercer people expect great things from this car. It has been built especially for racing and incorporates a

number of new ideas. The Mercer people use their racing teams for testing and experimental purposes. A thing is first tried out for a season on the racing cars, and if it shows no weaknesses it is then incorporated into the stock models. The raceabout models of today are the racing models of last season.

Pullen's team-mates at the 500-mile race will be Caley Bragg, the millionaire sportsman, and Spencer Wishart. These pilots will drive the two Mercers which were raced at Santa Monica in the Vanderbilt and Grand Prize races.

Charles Mackey of the Los Angeles firm will leave May 23 for the race. He will see the races and will go from Indianapolis to the Simplex and Mercer factories, where he will spend over a week in conference with the officials and inspecting the workings of the plants.

The racing crew is to be sent west in its entirety. The three cars will first race at Tacoma, and then Seattle and Pomona.

RECENT DELIVERIES OF STUDEBAKER CARS

Recent deliveries of Studebaker cars sold by the Wm. F. Lutz Company are as follows: Richard Egan of San Juan Capistrano, Studebaker "Four"; E. B. Smith, Studebaker "Six"; Mrs. Geo. Pickering, a Studebaker "Four"; and H. H. Dale, a "Four."

FISHERMEN ARE HAVING TROUBLE WITH SHARKS

Fishermen along the Orange county coast report that oil sharks are causing a great deal of trouble among the nets. The sharks get into the nets and their struggles to release themselves result in much damage.

—Workmen's compensation insurance? Yes, I sell the best. Ben Turner.

Copyright, 1914, by Panama-Pacific International Exposition Co.

SUPERB FRIEZE FOR WONDERFUL EXHIBIT PALACE, PANAMA-PACIFIC INTERNATIONAL EXPOSITION, 1915.

THE world will enjoy at San Francisco in 1915 the most marvelous collection of sculpture ever presented at a universal exposition. The photograph above shows an exquisite bas-relief representing the development of the industry, to be placed over the entrance of the colossal Palace of Varied Industries. The figures are of huge size. The work is by Ralph Stackpole, the brilliant American sculptor, and represents one of his finest creations.

GOOD TOURNAMENTS SCHEDULED HIGH SCHOOL TENNIS PLAYERS SHOW MUCH INTEREST IN GAME

A great deal of interest has been shown in tennis this year at the Polytechnic High School. As evidence of the enthusiasm shown it need only be said that, in the annual boys' tournament now in progress at the school there are 44 entries. Besides this event there are a number of others scheduled for the near future.

A match has been arranged with Anaheim High School for May 9. This tournament will be played on the home courts. On May 16, on the Y. M. C. A. courts in Los Angeles, Melton Hatch, R. Jayne, Isabelle Anderson and Ardis Burns will represent the local school in the Southern California Tennis Tournament. Hatch and Jayne will enter in the boys' singles and doubles and the Misses Anderson and Burns will enter the girls' singles and doubles. These four players will also represent Santa Ana on May 30 when the Orange County Tournament will be held at Orange.

A tournament has been arranged between the Polytechnic high schools of Los Angeles and Santa Ana. Play will be on the local courts on May 23. E. Burns and L. Warner will enter the second doubles in this meet. Ruth Harding and Orville Ball will compete in the girls' third and fourth

singles and second girls' doubles. M. Hatch and Isabelle Anderson will play in the first mixed doubles and R. Jayne and Ardis Burns will compete in the second mixed doubles.

The boys of the Polytechnic tennis players will meet with those of the Harvard Military Academy on June 14 at Los Angeles. On or about the same date the local girls will meet those of Marlborough school. Arrangements for this tournament are now being made.

Of the 44 boys entered in the boys' tournament which is now in progress there are about fifteen whose work stands out above the rest. Melton Hatch, who is, of course, expected to be returned to the lead at the present time, while the following players are doing a great deal toward crowding him for first place honors: F. Biggs, L. Warner, Fred Forgy, John Wehrley, B. Smith, K. Davis, J. Livey, H. Gale, B. Wallace, Martin Biggs, E. Burns, H. Damron, Ralph Jayne and Benny Osterman.

The annual girls' tournament is also in progress. Among the ladies Isabelle Anderson is expected to win the tournament, while the Misses Burns, Ball and Harding are crowding her for first place.

BOSCH COMPANY IS OFFERING SPECIALS AT INDIANAPOLIS

The Bosch Magneto Company, in keeping with the usual custom of awarding a series of prizes to the successful drivers in the important race meets of the country, is to offer \$1300 in special prizes for the drivers in the great 500-mile race at Indianapolis, Memorial day, says the Los Angeles Times.

To the winning driver in the speedway event, provided his car is equipped with a Bosch magneto, will be awarded \$500. The second car is to receive \$300, and the third is to receive \$200.

For cars using Bosch plugs in addition to the Bosch magnetos, the drivers of the first three cars to cross the line are to receive the sum of \$100 each.

The division of the prize money is made with the idea of adding interest to the sport. The Bosch company is said to be interested in the 100-mile race as a sporting event, and the man who is a near winner is awarded a prize of relative value for his success in the contest.

The one condition is that the winner of first, second or third place in the race, to be entitled to the prize, must have his car equipped with Bosch magneto and Bosch plugs.

REPORT OF COUNTY GAME WARDEN FOR APRIL IS ON FILE

The April report of County Game Warden W. K. Robinson to the Board of Supervisors, follows:

Santa Ana, Cal., May 1st, 1914. To the Honorable Board of Supervisors of Orange County, Cal.

Gentlemen: The following is my report as game warden of the county of Orange for the month of April, 1914:

April 1.—In company with Deputy Forster patrolled Mission Creek to and above the Hot Springs. Found all fishermen with proper fishing licenses, but with few fish.

April 2.—Returned to Santa Ana via Santa Fe railway, thence to Trabuco canyon via San Joaquin ranch roads, Aliso, Live Oak and Trabuco canyons.

April 3.—Patrolled Live Oak, Aliso and Santiago canyons, and posted game refuge warnings. Met no fishermen.

April 4.—Patrolled Silverado canyon and posted warning notices. Met a few fishermen with but few fish. All had licenses.

April 5.—Patrolled Trabuco and Holy Jim canyons. Found a few fishing parties in the canyons all with licenses.

April 6.—Patrolled Santiago canyon to Morrow's mines, found nobody in the canyon.

April 7.—Patrolled Live Oak and Aliso canyons and the San Joaquin ranch roads to Santa Ana.

April 8.—Got horse shod, and returned to Trabuco via San Joaquin ranch roads, Aliso and Live Oak canyons.

April 9.—Patrolled Trabuco and Holy Jim canyons. Found a party of boys fishing in the canyon, all under 18. One had a fishing license, however.

April 10.—Patrolled Belle canyon. No one in the canyon.

April 11.—Patrolled Gubernadora and Hot Springs canyons, as far as the Hot Springs and Dr. Morris' ranch. Found no one fishing in the canyons. Saw a number of quail en route. Quail are beginning to pair off.

April 12.—Patrolled Trabuco and Holy Jim canyons. Found several picnic and fishing parties in the canyons. The fishermen all had licenses but few fish.

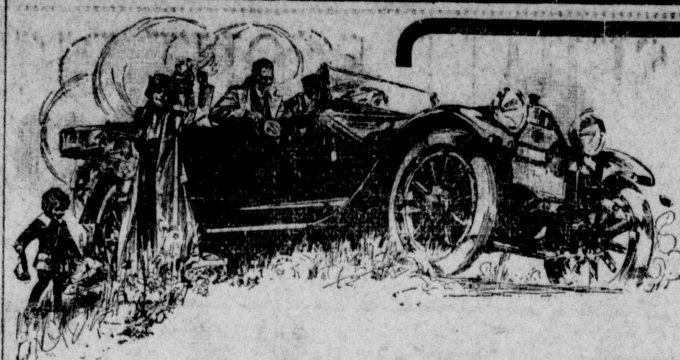

April 13.—Patrolled Belle canyon and Trabuco mesa.

April 14.—Patrolled Live Oak and Aliso canyons and San Joaquin ranch roads to Santa Ana.

April 15.—Went to Los Angeles via P. E. railway for consultation with the Fish and Game Commission.

April 16.—Patrolled the country east of Orange and around the County Park and returned to Santa Ana via Peters canyon and the San Joaquin ranch roads.

April 17.—Patrolled the county west of the Santa Ana river, the gun clubs of Huntington Beach and returned to Santa Ana, saw neither hunters or

Chalmers 1914

A Brief Story About Two "Sixes"

The Master "Six"
\$2325

That Restful Glide of the Chalmers Six is due to its wonderful motor. Ever since "one lugger" days the cry has been for more cylinders to eliminate that jerked-along feeling. But this was impossible till the advent of the perfect "six"—in which power impulses not only meet but actually overlap. Such a motor is the Chalmers. It yields an absolutely continuous power stream, which imparts a gliding, yacht-like motion to the car that resists all attempts at explanation.

The Master "Light Six"
\$1950

The Right Price for a Light Six. Don't pay too little for your car. Safety, efficiency and durability depend fully as much upon good materials and good design in a light as in a standard-sized car. The Chalmers 1915 Light Six at \$1950, f. o. b. Santa Ana, is priced, not to catch the eye for bargains, but to yield the greatest number of years of economy and motoring satisfaction skilled designers can produce in a car of this class. Before considering any car, by all means phone for a demonstration of the new Chalmers Light Six.

WAFFLE & WEST

Gold, Silver, Nickel, Copper and Brass Plating

WE PLATE ANYTHING FROM AN AUTOMOBILE DOWN TO A TEASPOON.

Nickel plating autos a specialty, brass beds refinished, iron beds enameled, chandelier work—any finish. In fact we do everything in the plating line. Remember we have the latest modern machinery and experts who make a specialty in the above named work.

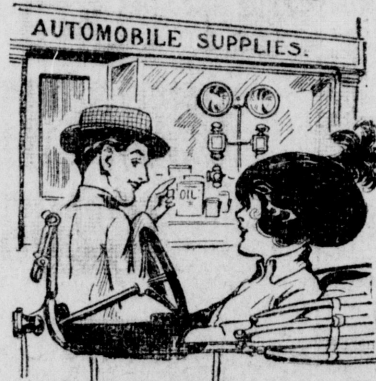

Ford Automobiles Nickel Plated at \$10 to \$15
Other makes of cars according to size

Western Plating and Refinishing Co.

416-418 North Sycamore St.
J. A. ALEXANDER, Mgr. and Supt. F. C. NICHOLS, Sec. and Treas.

Electric Re-charging Plant—Best Vulcanizing
by Steam-Heated Appliances

WE SAVE YOU MONEY ON TIRES, VULCANIZING AND ELECTRIC WORK.

Ask us about the Orange County Automobile League, you'll want to join when you learn of the advantages. League members buy their tires and get their vulcanizing and ignition work at big discounts.

We sell tires carrying guarantees of 3500 to 7000 miles

Santa Ana Vulcanizing Works

421-423 West Fourth St.

Santa Ana, Calif.

April 18.—Returned to Trabuco via San Joaquin ranch roads, Aliso and Live Oak canyons.
April 19.—Patrolled Trabuco and Holy Jim canyons.
April 20.—Patrolled Trabuco, Oso, Aliso and Live Oak canyons.
April 21.—Showery day; patrolled Belle canyon.
April 22.—Rainy day. Stayed at home.
April 23.—Patrolled Gubernadora and Hot Springs canyons to Capistrano. In the afternoon accompanied Deputy Frank Forster to San Onofre to see some commercial fishermen about licenses.
April 24.—Went to Laguna Beach via the coast route, saw rabbits, quail and dove on the way. The quail were all paired. Saw no one fishing.
April 25.—Patrolled Laguna Beach, Laguna, Toro, Aliso and Live Oak canyons. The fishermen at Laguna Beach all had licenses except those who were fishing from the pier.
April 26.—Patrolled Trabuco and Holy Jim canyons. Found several auto parties in the canyons but no one fishing.

April 27.—Patrolled Belle canyons.
April 28.—Rainy day. Stayed home.
April 29.—Patrolled Aliso, Live Oak canyons, and the San Joaquin ranch roads to Santa Ana.

April 29.—Patrolled Gubernadora canyon and Trabuco mesa.
Respectfully submitted,
W. K. ROBINSON,
Game Warden.
